SUBJECT INDEX

Accuracy
Model Calibration Forum Paper Discussion, Thomas M. Walski, EE Jan. 98, p3.

Acid mine water
Fluidized Bed for Removing Iron and Acidity from Acid Mine Drainage, Harry R. Diz and John T. Novak, P.E., EE Aug. 98, p701-708.

Acids
Effect of Bromide Ion on Haloacetic Acid Formation During Chlorination of Biscayne Aquifer Water, Wells W. Wu and Paul A. Chadik, EE Oct. 98, p932-938.

In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.

Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Toxicity of Acrylic Acid to Acetate-Enriched *Methanosarcina* Cultures, Göksel N. Demirer and Richard E. Speece, EE Apr. 98, p345-352.

Activated carbon
New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.

Activated carbon treatment
Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Activated sludge
Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.

Adsorbents
Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

Adsorption
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.

Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.

Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.

Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Surface Complexation Modeling of Metal Removal by Recycled Iron Sorbent, Edward H. Smith, EE Oct. 98, p913-920.

Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Advection
Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.

Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Aeration
Aeration Performance of Triangular Plan-Form Labyrinth Weirs, Peter R. Wormleaton and Ebrahim Soufiani, EE Aug. 98, p709-719.

Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Aerobic processes
Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Aerosols
Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Affirmative action
Equal Opportunity and Equality in Environmental Engineering, JoAnn Silverstein and Charles Glass, EE July 98, p581-583.

Age factors
Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.

Agricultural wastes
Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.

Agricultural watersheds
Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Air flow
Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Water-to-Air Mass Transfer of VOCs: Laboratory-Scale Air Sparging System, Keh-Ping Chao, Say Kee Ong and Angelos Protopapas, EE Nov. 98, p1054-1060.

Air injection
System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Air pollution control
Treatment of Styrene-Contaminated Air Stream in Biotrickling Filter Packed with Slags, Ming-Shean Chou and Chih-Chien Hsiao, EE Sept. 98, p844-850.

Air quality
Clean Air, Dirty Water? The MTBE Story, Daniel P. Y. Chang and Jerold A. Last, EE Oct. 98, p910-912.

Air water interactions
Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Alkalinity
Chemical Reactions and Gas Transfer in Natural Waters, Donald J. O'Connor, EE Feb. 98, p85-93.

Alumina
Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Aluminum
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.

Alums
Alum Residual Floc Interactions with an Advancing Ice/Water Interface, Philip J. Parker, Anthony G. Collins and John P. Dempsey, EE Mar. 98, p249-253.

Ammonia
Design Model for Selective Catalytic Reduction Process: Solution of Convective Diffusion and NO_x Reaction, Hsunling Bai and Jong-Wen Chwu, EE Dec. 98, p1220-1227.

Evaluating Molecular Ozone and Radical Pathways of Bromate Formation During Ozonation, Kenan Ozekin, Paul Westerhoff, Gary L. Amy and Mohamed Siddiqui, EE May 98, p456-462.

Anaerobic digestion
High-Solids Anaerobic Digestion of Mixed Municipal and Industrial Waste, Jan A. Oleszkiewicz and Hector M. Poggi-Varaldo, EE Nov. 97, p1087-1092.

Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.

Anaerobic filters
Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

Multi-Fed Upflow Anaerobic Filter: Development and Features, A. Puñal, R. Méndez and J. M. Lema, EE Dec. 98, p1188-1192.

Anaerobic processes
Anaerobic Treatment of Low-Strength Domestic Wastewater Using an Anaerobic Expanded Bed Reactor, Anthony G. Collins, Thomas L. Theis, Srinivas Kilambi, Lin He and Spyros G. Pavlostathis, EE July 98, p652-659.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.

Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Optimal Design for Anaerobic Pretreatment of Municipal Wastewater, Bruce J. Alderman, Thomas L. Theis and Anthony G. Collins, EE Jan. 98, p4-10.

Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Toxicity of Acrylic Acid to Acetate-Enriched *Methanosarcina* Cultures, Göksel N. Demirer and Richard E. Speece, EE Apr. 98, p345-352.

Anion exchange
Growth Kinetics of Mixed Cultures under Chlorate-Reducing Conditions, Bruce E. Logan, Adam R. Bliven, Shari R. Olsen and Rabindranath Patnaik, EE Oct. 98, p1008-1011.

Anisotropic soils
NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Aquatic environment
The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Aquifers
Numerical Simulation of Tracer Tests in Heterogeneous Aquifer, C. Zheng and J. J. Jiao, EE June 98, p510-516.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Assessments
Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Backwashing
Existence of Critical Recovery and Impacts of Operational Mode on Potable Water Microfiltration, Shankararaman Chellam and Joseph G. Jacangelo, EE Dec. 98, p1211-1219.

Bacteria
Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.

SUBJECT INDEX

Accuracy
Model Calibration Forum Paper Discussion, Thomas M. Walski, EE Jan. 98, p3.

Acid mine water
Fluidized Bed for Removing Iron and Acidity from Acid Mine Drainage, Harry R. Diz and John T. Novak, P.E., EE Aug. 98, p701-708.

Acids
Effect of Bromide Ion on Haloacetic Acid Formation During Chlorination of Biscayne Aquifer Water, Wells W. Wu and Paul A. Chadik, EE Oct. 98, p932-938.

In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.

Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Toxicity of Acrylic Acid to Acetate-Enriched *Methanosarcina* Cultures, Göksel N. Demirer and Richard E. Speece, EE Apr. 98, p345-352.

Activated carbon
New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.

Activated carbon treatment
Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Activated sludge
Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.

Adsorbents
Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

Adsorption
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.

Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.

Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.

Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Surface Complexation Modeling of Metal Removal by Recycled Iron Sorbent, Edward H. Smith, EE Oct. 98, p913-920.

Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Advection
Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.

Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Aeration
Aeration Performance of Triangular Plan-Form Labyrinth Weirs, Peter R. Wormleaton and Ebrahim Soufiani, EE Aug. 98, p709-719.

Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Aerobic processes
Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Aerosols
Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Affirmative action
Equal Opportunity and Equality in Environmental Engineering, JoAnn Silverstein and Charles Glass, EE July 98, p581-583.

Age factors
Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.

Agricultural wastes
Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.

Agricultural watersheds
Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Air flow
Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Water-to-Air Mass Transfer of VOCs: Laboratory-Scale Air Sparging System, Keh-Ping Chao, Say Kee Ong and Angelos Protopapas, EE Nov. 98, p1054-1060.

Air injection
System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Air pollution control
Treatment of Styrene-Contaminated Air Stream in Biotrickling Filter Packed with Slags, Ming-Shean Chou and Chih-Chien Hsiao, EE Sept. 98, p844-850.

Air quality
Clean Air, Dirty Water? The MTBE Story, Daniel P. Y. Chang and Jerold A. Last, EE Oct. 98, p910-912.

Air water interactions
Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Alkalinity
Chemical Reactions and Gas Transfer in Natural Waters, Donald J. O'Connor, EE Feb. 98, p85-93.

Alumina
Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Aluminum
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.

Alums
Alum Residual Floc Interactions with an Advancing Ice/Water Interface, Philip J. Parker, Anthony G. Collins and John P. Dempsey, EE Mar. 98, p249-253.

Ammonia
Design Model for Selective Catalytic Reduction Process: Solution of Convective Diffusion and NO_x Reaction, Hsunling Bai and Jong-Wen Chwu, EE Dec. 98, p1220-1227.

Evaluating Molecular Ozone and Radical Pathways of Bromate Formation During Ozonation, Kenan Ozekin, Paul Westerhoff, Gary L. Amy and Mohamed Siddiqui, EE May 98, p456-462.

Anaerobic digestion
High-Solids Anaerobic Digestion of Mixed Municipal and Industrial Waste, Jan A. Oleszkiewicz and Hector M. Poggi-Varaldo, EE Nov. 97, p1087-1092.

Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.

Anaerobic filters
Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

Multi-Fed Upflow Anaerobic Filter: Development and Features, A. Puñal, R. Méndez and J. M. Lema, EE Dec. 98, p1188-1192.

Anaerobic processes
Anaerobic Treatment of Low-Strength Domestic Wastewater Using an Anaerobic Expanded Bed Reactor, Anthony G. Collins, Thomas L. Theis, Srinivas Kilambi, Lin He and Spyros G. Pavlostathis, EE July 98, p652-659.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.

Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Optimal Design for Anaerobic Pretreatment of Municipal Wastewater, Bruce J. Alderman, Thomas L. Theis and Anthony G. Collins, EE Jan. 98, p4-10.

Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Toxicity of Acrylic Acid to Acetate-Enriched *Methanosarcina* Cultures, Göksel N. Demirer and Richard E. Speece, EE Apr. 98, p345-352.

Anion exchange
Growth Kinetics of Mixed Cultures under Chlorate-Reducing Conditions, Bruce E. Logan, Adam R. Bliven, Shari R. Olsen and Rabindranath Patnaik, EE Oct. 98, p1008-1011.

Anisotropic soils
NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Aquatic environment
The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Aquifers
Numerical Simulation of Tracer Tests in Heterogeneous Aquifer, C. Zheng and J. J. Jiao, EE June 98, p510-516.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Assessments
Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Backwashing
Existence of Critical Recovery and Impacts of Operational Mode on Potable Water Microfiltration, Shankararaman Chellam and Joseph G. Jacangelo, EE Dec. 98, p1211-1219.

Bacteria
Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.

Barriers

Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.

Capillary Barriers and Subtitle D Covers: Estimating Equivalency, Carl E. Morris and John C. Stormont, EE Jan. 97, p3-10.

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Nonequilibrium Sorption in Soil/Bentonite Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Apr. 98, p329-335.

Batch processing

Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Bayesian analysis

Estimation of Biokinetic Parameters for Unsaturated Soils, Brent E. Sleep and Lynda J. Mulcahy, EE Oct. 98, p959-969.

Bays

Eutrophication Model for a Coastal Bay in Hong Kong, K. W. Chau and Haisheng Jin, EE July 98, p628-638.

Bentonite

Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Benzene

Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Biochemical oxygen demand

Trends in BOD/DO Modeling for Wasteload Allocations, Wu-Seng Lung, EE Oct. 98, p1004-1007.

Biodegradation

Anaerobic Treatment of Low-Strength Domestic Wastewater Using an Anaerobic Expanded Bed Reactor, Anthony G. Collins, Thomas L. Theis, Srinivas Kilambi, Lin He and Spyros G. Pavlostathis, EE July 98, p652-659.

Continuous-Flow Wood Chip Reactor for Biodegradation of 2,4-DCP, Kyu-Jin Yum and J.Jeffrey Peirce, EE Feb. 98, p184-190.

Estimation of Biokinetic Parameters for Unsaturated Soils, Brent E. Sleep and Lynda J. Mulcahy, EE Oct. 98, p959-969.

Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Three-Dimensional Model for Subsurface Transport and Biodegradation, Dan W. Waddill and Mark A. Widdowson, EE Apr. 98, p336-344.

Biofilm

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Biological properties

Defining Biosolids Stability, Michael S. Switzenbaum, Lynne H. Moss, Eliot Epstein, Albert B. Pincince and John F. Donovan, EE Dec. 97, p1178-1184.

Biological treatment

Comparative Kinetics of Bacterial Reduction of Chromium, Eric A. Schmieman, David R. Yonge, Mahesh A. Rege, James N. Petersen, Charles E. Turick, Donald L. Johnstone and William A. Apel, EE May 98, p449-455.

Comparison of Autotrophic and Mixotrophic Biofilters for H_2S Removal, Ying-Chien Chung, Chihpin Huang, Jill Ruhsing Pan and Ching-Ping Tseng, EE Apr. 98, p362-367.

Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.

Derivation of Mean Cell Residence Time Formula, Nicolas G. Adrien, P.E., EE May 98, p473-474.

Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Sept. 98, p782.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.

Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

Nitrate Removal from Drinking Water—Review, Anoop Kapoor and T. Viraraghavan, EE Apr. 97, p371-380.

Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.

Temperature Responses of Biological Phosphorus-Removing Activated Sludge, Pradeep Kumar, Indu Mehrotra and T. Viraraghavan, EE Feb. 98, p192-196.

Treatment of Styrene-Contaminated Air Stream in Biotrickling Filter Packed with Slags, Ming-Shean Chou and Chih-Chien Hsiao, EE Sept. 98, p844-850.

Biomass

Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Boundary conditions

Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.

Boundary element method

BEM Solution for Design of Trenches in Multilayered Landfills, V. Popov, H. Power and J. M. Baldasano, EE Jan. 98, p59-66.

Bromides

Effect of Bromide Ion on Haloacetic Acid Formation During Chlorination of Biscayne Aquifer Water, Wells W. Wu and Paul A. Chadik, EE Oct. 98, p932-938.

Evaluating Molecular Ozone and Radical Pathways of Bromate Formation During Ozonation, Kenan Ozekin, Paul Westerhoff, Gary L. Amy and Mohamed Siddiqui, EE May 98, p456-462.

Cadmium

Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.

Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Calibration

Application of Inverse Method to Calibrate Estuarine Eutrophication Model, J. Shen and A. Y. Kuo, EE May 98, p409-418.

Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Genetic Algorithms for Calibrating Water Quality Models, Ann E. Mulligan and Linfield C. Brown, EE Mar. 98, p202-211.

Metal Ion Leaching From Contaminated Soils: Model Calibration and Application, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Dec. 98, p1150-1158.

Model Calibration Forum Paper Discussion, Thomas M. Walski, EE Jan. 98, p3.

Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.

California

Clean Air, Dirty Water? The MTBE Story, Daniel P. Y. Chang and Jerold A. Last, EE Oct. 98, p910-912.

Fate and Transport of Metam Spill in Sacramento River, P. F. Wang, T. Mill, J. L. Martin and T. A. Wool, EE July 97, p704-712.

Carbon dioxide

Carbon Dioxide Reduction-A Noble Cause, But a Challenging Task, Oliver J. Hao and Pen-Chi Chiang, EE Nov. 98, p1033-1034.

Chemical Reactions and Gas Transfer in Natural Waters, Donald J. O'Connor, EE Feb. 98, p85-93.

Editor's Note: Papers in this Issue, EE May 98, p396.

Carbonation

Influence of Carbonation on Leaching of Cementitious Wasteforms, Md. Sazzad Bin Shafique, John C. Walton, Neyda Gutierrez, Robert W. Smith and Anthony J. Tarquin, EE May 98, p463-467.

Carcinogens

Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.

Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

Case reports

Returning Impaired Marine Outfall Diffusers to Full Service, Robert A. Grace, EE Mar. 97, p297-303.

Cast iron

Chlorinated Ethene Reduction by Cast Iron: Sorption and Mass Transfer, David R. Burris, Richelle M. Allen-King, Valipuram S. Manoranjan, Timothy J. Campbell, Gregory A. Loraine and Baolin Deng, EE Oct. 98, p1012-1019.

Change

Environmental Engineering: Changes Then, Now, and Next, EE Jan. 98, p1.

Chemical oxygen demand

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Optimal Design for Anaerobic Pretreatment of Municipal Wastewater, Bruce J. Alderman, Thomas L. Theis and Anthony G. Collins, EE Jan. 98, p4-10.

Chemical reactions

Chemical Reactions and Gas Transfer in Natural Waters, Donald J. O'Connor, EE Feb. 98, p85-93.

Decontamination of U-Rich Waters by Granular Iron, Laurent Charlet, E. Liger and Gerasimo, EE Jan. 98, p25-30.

Iron Oxide Surface Catalyzed Oxidation of Quinoline by Hydrogen Peroxide, Richard L. Valentine and H. C. Ann Wang, EE Jan. 98, p31-38.

Mercury Disposal Via Sulfur Reactions, Lawrence N. Oji, EE Oct. 98, p945-952.

NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.

Chemical spills

Fate and Transport of Metam Spill in Sacramento River, P. F. Wang, T. Mill, J. L. Martin and T. A. Wool, EE July 97, p704-712.

Chemical treatment

Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.

Chemicals

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.

Growth Kinetics of Mixed Cultures under Chlorate-Reducing Conditions, Bruce E. Logan, Adam R. Bliven, Shari R. Olsen and Rabindranath Patnaik, EE Oct. 98, p1008-1011.

Chemostat
Growth Kinetics of Mixed Cultures under Chlorate-Reducing Conditions, Bruce E. Logan, Adam R. Bliven, Shari R. Olsen and Rabindranath Patnaik, EE Oct. 98, p1008-1011.

Chlordane
Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

Chlorination
Effect of Bromide Ion on Haloacetic Acid Formation During Chlorination of Biscayne Aquifer Water, Wells W. Wu and Paul A. Chadik, EE Oct. 98, p932-938.

Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.

Chlorine
Chlorinated Ethene Reduction by Cast Iron: Sorption and Mass Transfer, David R. Burris, Richelle M. Allen-King, Valipuram S. Manoranjan, Timothy J. Campbell, Gregory A. Loraine and Baolin Deng, EE Oct. 98, p1012-1019.

Chlorine Demand and Trihalomethane Formation Kinetics: a Second-Order Model, Robert M. Clark, EE Jan. 98, p16-24.

In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.

Modeling Chlorine Inactivation Requirements of *Cryptosporidium Parvum* Oocysts, L. L. Gyürék, G. R. Finch and M. Belosevic, EE Sept. 97, p865-875.

Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.

Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Chromium
Comparative Kinetics of Bacterial Reduction of Chromium, Eric A. Schmieman, David R. Yonge, Mahesh A. Rege, James N. Petersen, Charles E. Turick, Donald L. Johnstone and William A. Apel, EE May 98, p449-455.

Cr-Polluted Soil Studied by High Gradient Magnetic Separation and Electron Probe, R. A. Rikers, J. H. L. Voncken and W. L. Dalmijn, EE Dec. 98, p1159-1164.

Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.

In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Cisterns
Reactor Models for Horseradish Peroxidase–Catalyzed Aromatic Removal, Ian D. Buchanan, James A. Nicell and Monika Wagner, EE Sept. 98, p794-802.

Clarifiers
Dynamic Model for Zone Settling and Compression in Gravity Thickeners, Yunsheng Zheng and David M. Bagley, EE Oct. 98, p953-958.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Clay liners
A New Clay Liner to Reduce Ground-Water Contamination from Heavy Metals, Tsau-Don Tasi and P. Aarne Vesilind, EE Nov. 98, p1061-1065.

Coagulation
Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.

Coastal environment
Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Rapid Sizing and Performance Evaluation of Submarine Outfalls with Line Diffusers, Maria A. Economopoulou and Alexander P. Economopoulos, EE Feb. 98, p138-145.

Coefficients
Analysis of Reaeration Equations Using Mean Multiplicative Error, Douglas B. Moog and Gerhard H. Jirka, EE Feb. 98, p104-110.

Water-to-Air Mass Transfer of VOCs: Laboratory-Scale Air Sparging System, Keh-Ping Chao, Say Kee Ong and Angelos Protopapas, EE Nov. 98, p1054-1060.

Collisions
Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.

Combined sewers
Physical Modeling of Hydrodynamic Separators Operating with Underflow, R. A. Fenner and J. N. Tyack, EE Sept. 98, p881-886.

Composting
Defining Biosolids Stability, Michael S. Switzenbaum, Lynne H. Moss, Eliot Epstein, Albert B. Pincince and John F. Donovan, EE Dec. 97, p1178-1184.

Compression
Dynamic Model for Zone Settling and Compression in Gravity Thickeners, Yunsheng Zheng and David M. Bagley, EE Oct. 98, p953-958.

Concentration
Dynamic Model for Zone Settling and Compression in Gravity Thickeners, Yunsheng Zheng and David M. Bagley, EE Oct. 98, p953-958.

Initial Settling Rate/Concentration Relationship in Zone Settling, M. A. Islam and R. D. Karamisheva, EE Jan. 98, p39-42.

Confidence intervals
Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.

Confinement
Steam Stripping Organics from "Fluidized" Soils (Versus Confined Soils), Arthur E. Lord, Jr., EE Apr. 98, p390-394.

Construction
Editorial, Peter J. Filanc and J. B. Neethling, EE Dec. 98, p1147-1148.

Construction materials
Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Containment
Evaluation of Containment Systems Using Hydraulic Head Data, Randall R. Ross and Milovan S. Beljin, EE June 98, p575-578.

Hierarchy of Monitoring Techniques for Subsurface Contaminants and Containment Systems, Hillary I. Inyang and David Betsill, EE June 98, p488.

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Site Characterization and Containment Assessment with Dissolved Gases, William E. Sanford and D. Kip Solomon, EE June 98, p572-574.

Contaminants
Analytical Inverse Model for Multicomponent Soil Vapor Extraction, Clifford K. Ho, EE June 98, p504-509.

Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.

Classification of Flotation Processes in Wastewater Decontamination, Nicholai N. Voronin and Igor A. Dibrov, EE May 98, p469-472.

Continuous-Flow Wood Chip Reactor for Biodegradation of 2,4-DCP, Kyu-Jin Yum and J.Jeffrey Peirce, EE Feb. 98, p184-190.

Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.

Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.

Evaluation of Containment Systems Using Hydraulic Head Data, Randall R. Ross and Milovan S. Beljin, EE June 98, p575-578.

Experimental and Numerical Evaluation of LNAPL Lens and Polluted Capillary Fringe Thickness, Lizette R. Chevalier, EE Feb. 98, p156-161.

Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.

Gas Permeability and Diffusivity in Undisturbed Soil: SVE Implications, Tjalfe G. Poulsen, Per Moldrup, Per Schjønning, Joel W. Massmann and Jens Aa. Hansen, EE Oct. 98, p979-986.

Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.

Hierarchy of Monitoring Techniques for Subsurface Contaminants and Containment Systems, Hillary I. Inyang and David Betsill, EE June 98, p488.

NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Nonequilibrium Sorption in Soil/Bentonite Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Apr. 98, p329-335.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.

Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.

Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

Self-Referencing Fiber-Optic Fluorescence Sensor for Turbid Samples, Terence L. Tipton and Brian S. Vogt, EE June 98, p545-548.

Steam Stripping Organics from "Fluidized" Soils (Versus Confined Soils), Arthur E. Lord, Jr., EE Apr. 98, p390-394.

Contamination
Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Contracting
Editorial, Peter J. Filanc and J. B. Neethling, EE Dec. 98, p1147-1148.

Control
Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Cooling water
Methodology for Predicting Cooling Water Effects on Fish, Cem Çakiroğlu and Coşkun Yurteri, EE July 98, p612-618.

Cooperative education
Environmental Engineering Forum (Discussion of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, Vol. 122, No. 9, pp. 779-784), Navnit Padival, P.E., EE Mar. 98, p199-201.

Copper
Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Cost analysis
Optimal Design for Anaerobic Pretreatment of Municipal Wastewater, Bruce J. Alderman, Thomas L. Theis and Anthony G. Collins, EE Jan. 98, p4-10.

Costs
Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

Coverings
Capillary Barriers and Subtitle D Covers: Estimating Equivalency, Carl E. Morris and John C. Stormont, EE Jan. 97, p3-10.

Cracks
Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Crossflow
Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Currents
Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Curricula
Directions for Environmental Engineering, David A. Dzombak, Francis C. McMichael and Walter J. Blenko, EE Nov. 98, p1036-1037.

Editorial, Suzanne E. Powers, EE May 98, p395.

Environmental Engineering Forum (Closure of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, vol. 122, No. 9, pp. 779-784), Steven I. Safferman, Vivek P. Utgikar and Sarwan S. Sandhu, EE Mar. 98, p201.

Cyanides
Photochemical Destruction of Cyanide in Landfill Leachate, B. R. Kim, D. H. Podsiadlik, E. M. Kalis, J. L. Hartlund and W. A. Gaines, EE Nov. 98, p1108-1113.

Data collection
Monitoring Hydraulic Gradient Using Three-Point Estimator, Stephen E. Silliman and Craig Frost, EE June 98, p517-523.

Decision making
The Ethics and Science of Environmental Regulation, P. Aarne Vesilind and Lauren Bartlett, EE Aug. 98, p675-676.

Model Calibration Forum Paper Discussion, Thomas M. Walski, EE Jan. 98, p3.

Decomposition
Decomposition of Specific Materials Buried within Sanitary Landfills, Timothy D. Baldwin, Jeffrey Stinson and Robert K. Ham, EE Dec. 98, p1193-1202.

Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Deep water
Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.

Degradation
Advanced Oxidation Processes for Degradation of 2,4-Dichlor- and 2,4-Dimethylphenol, Marina Trapido, Yelena Veressinina and Rein Munter, EE Aug. 98, p690-694.

Decomposition of Specific Materials Buried within Sanitary Landfills, Timothy D. Baldwin, Jeffrey Stinson and Robert K. Ham, EE Dec. 98, p1193-1202.

Decontamination of U-Rich Waters by Granular Iron, Laurent Charlet, E. Liger and Gerasimo, EE Jan. 98, p25-30.

Effects of Moisture on Pyrolysis of Polypropylene, Chao-Hsiung Wu, Ching-Yuan Chang and Jyh-Ping Lin, EE Sept. 98, p892-896.

Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.

Deicing
Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Denitrification
Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.

Nitrate Removal from Drinking Water—Review, Anoop Kapoor and T. Viraraghavan, EE Apr. 97, p371-380.

Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Density stratification
Eutrophication Model for a Coastal Bay in Hong Kong, K. W. Chau and Haisheng Jin, EE July 98, p628-638.

Deoxygenation
Trends in BOD/DO Modeling for Wasteload Allocations, Wu-Seng Lung, EE Oct. 98, p1004-1007.

Deposition
Returning Impaired Marine Outfall Diffusers to Full Service, Robert A. Grace, EE Mar. 97, p297-303.

Desiccation
Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Design
Capillary Barriers and Subtitle D Covers: Estimating Equivalency, Carl E. Morris and John C. Stormont, EE Jan. 97, p3-10.

Editorial, Peter J. Filanc and J. B. Neethling, EE Dec. 98, p1147-1148.

Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

Detention basins
Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.

Diffusers
Returning Impaired Marine Outfall Diffusers to Full Service, Robert A. Grace, EE Mar. 97, p297-303.

Diffusion
Gas Permeability and Diffusivity in Undisturbed Soil: SVE Implications, Tjalfe G. Poulsen, Per Moldrup, Per Schjønning, Joel W. Massmann and Jens Aa. Hansen, EE Oct. 98, p979-986.

Diffusion coefficient
Determination of Oxygen Diffusion Coefficient in Wastewaters, Sheng H. Lin, Tze M. Lin and Horng G. Leu, EE Mar. 98, p265-271.

Digesters
Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Digestion
Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Dilution
Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.

Discharge
Models of Storm Sewers Discharge: 1. Description, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p593-599.

Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

Discrimination
Equal Opportunity and Equality in Environmental Engineering, JoAnn Silverstein and Charles Glass, EE July 98, p581-583.

Disinfection
Comparative Risk Dilemma in Drinking Water Disinfection, Lewis A. Rossman, EE Sept. 98, p781.

Modeling Chlorine Inactivation Requirements of *Cryptosporidium Parvum* Oocysts, L. L. Gyürék, G. R. Finch and M. Belosevic, EE Sept. 97, p865-875.

Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.

Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.

Dispersion
Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.

Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Disposal
Mixed Policies for Recovery and Disposal of Multiple-Type Consumer Products, H. R. Krikke, A. van Harten and P. C. Schuur, EE Apr. 98, p368-379.

Dissolved gases
Site Characterization and Containment Assessment with Dissolved Gases, William E. Sanford and D. Kip Solomon, EE June 98, p572-574.

Dissolved oxygen
Aeration Performance of Triangular Plan-Form Labyrinth Weirs, Peter R. Wormleaton and Ebrahim Soufiani, EE Aug. 98, p709-719.

Determination of Oxygen Diffusion Coefficient in Wastewaters, Sheng H. Lin, Tze M. Lin and Horng G. Leu, EE Mar. 98, p265-271.

Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.

Trends in BOD/DO Modeling for Wasteload Allocations, Wu-Seng Lung, EE Oct. 98, p1004-1007.

Dissolved solids
Influence of Carbonation on Leaching of Cementitious Wasteforms, Md. Sazzad Bin Shafique, John C. Walton, Neyda Gutierrez, Robert W. Smith and Anthony J. Tarquin, EE May 98, p463-467.

Dyes
Evaluation of Membrane Filtration and Ozonation Processes for Treatment of Reaction Dye Wastewater, Jiangning Wu, Mark A. Eiteman and S. Edward Law, EE Mar. 98, p272-277.

Dynamic models
Surface Complexation Modeling of Metal Removal by Recycled Iron Sorbent, Edward H. Smith, EE Oct. 98, p913-920.

Ecosystems
The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Education
Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

My Advice to the Young Engineer—Learn to Think, Riley N. Kinman, EE Aug. 98, p673.

Why Environmental Engineering Should Be a Separate Major: Forum Paper Discussion, Nicholas L. Clesceri, P.E., EE June 98, p489.

Education-practice interchange
Environmental Engineering Forum (Closure of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, vol. 122, No. 9, pp. 779-784), Steven I. Safferman, Vivek P. Utgikar and Sarwan S. Sandhu, EE Mar. 98, p201.

Effective stress
Dynamic Model for Zone Settling and Compression in Gravity Thickeners, Yunsheng Zheng and David M. Bagley, EE Oct. 98, p953-958.

Efficiency
Does Filtration Efficiency Affect Measurements of Particle Chemical Composition? Carlos M. Romo-Kröger, EE July 98, p669-671.

Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.

Effluents
Rapid Sizing and Performance Evaluation of Submarine Outfalls with Line Diffusers, Maria A. Economopoulou and Alexander P. Economopoulos, EE Feb. 98, p138-145.

Electrokinetics
Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.

Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Electrolysis
In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.

Empirical equations
Analysis of Reaeration Equations Using Mean Multiplicative Error, Douglas B. Moog and Gerhard H. Jirka, EE Feb. 98, p104-110.

Employment opportunities
Environmental Engineering Forum (Closure of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, vol. 122, No. 9, pp. 779-784), Steven I. Safferman, Vivek P. Utgikar and Sarwan S. Sandhu, EE Mar. 98, p201.

Engineering
Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.
My Advice to the Young Engineer—Learn to Think, Riley N. Kinman, EE Aug. 98, p673.

Engineering education
Directions for Environmental Engineering, David A. Dzombak, Francis C. McMichael and Walter J. Blenko, EE Nov. 98, p1036-1037.
Editorial, Suzanne E. Powers, EE May 98, p395.
Environmental Engineering—What Does It Take to Start? Robert G. Arnold, EE Oct. 98, p907-908.
Why Environmental Engineering Should Be a Separate Major: Forum Paper Discussion, Nicholas L. Clesceri, P.E., EE June 98, p489.

Entrainment
Methodology for Predicting Cooling Water Effects on Fish, Cem Çakiroğlu and Coşkun Yurteri, EE July 98, p612-618.

Environment
Carbon Dioxide Reduction-A Noble Cause, But a Challenging Task, Oliver J. Hao and Pen-Chi Chiang, EE Nov. 98, p1033-1034.

Environmental engineering
Carbon Dioxide Reduction-A Noble Cause, But a Challenging Task, Oliver J. Hao and Pen-Chi Chiang, EE Nov. 98, p1033-1034.
Directions for Environmental Engineering, David A. Dzombak, Francis C. McMichael and Walter J. Blenko, EE Nov. 98, p1036-1037.
Editorial: Donald J. O'Connor (1922-1997), An Historic Teacher and Scholar of Environmental Engineering, Robert V. Thomann, Dominic M. DiToro and Wu-Seng Lung, EE Feb. 98, p82-84.
Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.
Environmental Engineering: Changes Then, Now, and Next, EE Jan. 98, p1.
Environmental Engineering Forum (Discussion of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, Vol. 122, No. 9, pp. 779-784), Navnit Padival, P.E., EE Mar. 98, p199-201.
Environmental Engineering—What Does It Take to Start? Robert G. Arnold, EE Oct. 98, p907-908.
Equal Opportunity and Equality in Environmental Engineering, JoAnn Silverstein and Charles Glass, EE July 98, p581-583.
Future Direction of Environmental Engineering in Manufacturing Industries, Irving T. Salmeen and Byung R. Kim, EE July 98, p580.
Why Environmental Engineering Should Be a Separate Major: Forum Paper Discussion, Nicholas L. Clesceri, P.E., EE June 98, p489.

Environmental impacts
Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.

Environmental quality regulations
The Ethics and Science of Environmental Regulation, P. Aarne Vesilind and Lauren Bartlett, EE Aug. 98, p675-676.

Enzymes
Comparative Kinetics of Bacterial Reduction of Chromium, Eric A. Schmieman, David R. Yonge, Mahesh A. Rege, James N. Petersen, Charles E. Turick, Donald L. Johnstone and William A. Apel, EE May 98, p449-455.
Reactor Models for Horseradish Peroxidase–Catalyzed Aromatic Removal, Ian D. Buchanan, James A. Nicell and Monika Wagner, EE Sept. 98, p794-802.

Epoxy resins
Pyrolysis-Based Material Recovery from Molding Resin for Electronic Parts, Masatoshi Iji and Yuji Ikuta, EE Sept. 98, p821-828.

Equal employment opportunity
Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.
Equal Opportunity and Equality in Environmental Engineering, JoAnn Silverstein and Charles Glass, EE July 98, p581-583.

Equilibrium
Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.

Equipment
Apparatus for Streaming Potential Measurements on Granular Filter Media, S. E. Truesdail, G. B. Westermann-Clark and D. O. Shah, EE Dec. 98, p1228-1232.

Estimates
Variance of Load Estimates Derived by Piecewise Linear Interpolation, George Shih, Xiaosong Wang, H. J. Grimshaw and Joel VanArman, EE Nov. 98, p1114-1120.

Estimation
Analysis of Reaeration Equations Using Mean Multiplicative Error, Douglas B. Moog and Gerhard H. Jirka, EE Feb. 98, p104-110.
Application of Inverse Method to Calibrate Estuarine Eutrophication Model, J. Shen and A. Y. Kuo, EE May 98, p409-418.
Determination of Oxygen Diffusion Coefficient in Wastewaters, Sheng H. Lin, Tze M. Lin and Horng G. Leu, EE Mar. 98, p265-271.
Estimation of Biokinetic Parameters for Unsaturated Soils, Brent E. Sleep and Lynda J. Mulcahy, EE Oct. 98, p959-969.
Genetic Algorithms for Calibrating Water Quality Models, Ann E. Mulligan and Linfield C. Brown, EE Mar. 98, p202-211.
Monitoring Hydraulic Gradient Using Three-Point Estimator, Stephen E. Silliman and Craig Frost, EE June 98, p517-523.

Estuaries
Application of Inverse Method to Calibrate Estuarine Eutrophication Model, J. Shen and A. Y. Kuo, EE May 98, p409-418.

Ethics
Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.
The Ethics and Science of Environmental Regulation, P. Aarne Vesilind and Lauren Bartlett, EE Aug. 98, p675-676.

Eutrophication
Application of Inverse Method to Calibrate Estuarine Eutrophication Model, J. Shen and A. Y. Kuo, EE May 98, p409-418.
Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.
Eutrophication Model for a Coastal Bay in Hong Kong, K. W. Chau and Haisheng Jin, EE July 98, p628-638.

Evaporation
Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

Evolutionary computation
Genetic Algorithms for Calibrating Water Quality Models, Ann E. Mulligan and Linfield C. Brown, EE Mar. 98, p202-211.

Experimentation
Modeling Chlorine Inactivation Requirements of *Cryptosporidium Parvum* Oocysts, L. L. Gyürék, G. R. Finch and M. Belosevic, EE Sept. 97, p865-875.

Explosives
Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.

Extraction procedures
Analytical Inverse Model for Multicomponent Soil Vapor Extraction, Clifford K. Ho, EE June 98, p504-509.
Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.
Gas Permeability and Diffusivity in Undisturbed Soil: SVE Implications, Tjalfe G. Poulsen, Per Moldrup, Per Schjønning, Joel W. Massmann and Jens Aa. Hansen, EE Oct. 98, p979-986.
Influence of Water Content on SVE in a Silt Loam Soil, B. Harper, W. H. Stiver and R. G. Zytner, EE Nov. 98, p1047-1053.
VOC Vapor Sorption in Soil; Soil Type Dependent Model and Implications for Vapor Extraction, Tjalfe G. Poulsen, Per Moldrup, T. Yamaguchi, Joel W. Massmann and Jens A. Hansen, EE Feb. 98, p146-155.

Faculty
Editorial, Suzanne E. Powers, EE May 98, p395.

Fiber optics
Determination of Heat Production Zones at Open-Cast Mine Dump, M. Schreck, M. Nishigaki, H.-R. Gläser, G. Christoph, S. Großwig, E. Hurtig, M. Kasch and K. Kühn, EE July 98, p646-651.
Self-Referencing Fiber-Optic Fluorescence Sensor for Turbid Samples, Terence L. Tipton and Brian S. Vogt, EE June 98, p545-548.

Filter materials
Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Filters
Apparatus for Streaming Potential Measurements on Granular Filter Media, S. E. Truesdail, G. B. Westermann-Clark and D. O. Shah, EE Dec. 98, p1228-1232.
Comparison of Autotrophic and Mixotrophic Biofilters for H_2S Removal, Ying-Chien Chung, Chihpin Huang, Jill Ruhsing Pan and Ching-Ping Tseng, EE Apr. 98, p362-367.

Filtration
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.
Does Filtration Efficiency Affect Measurements of Particle Chemical Composition? Carlos M. Romo-Kröger, EE July 98, p669-671.
Evaluation of Membrane Filtration and Ozonation Processes for Treatment of Reaction Dye Wastewater, Jiangning Wu, Mark A. Eiteman and S. Edward Law, EE Mar. 98, p272-277.
Existence of Critical Recovery and Impacts of Operational Mode on Potable Water Microfiltration, Shankararaman Chellam and Joseph G. Jacangelo, EE Dec. 98, p1211-1219.
Initial Settling Rate/Concentration Relationship in Zone Settling, M. A. Islam and R. D. Karamisheva, EE Jan. 98, p39-42.
Nanofiltration of Natural Organic Matter: pH and Ionic Strength Effects, Anne Braghetta, P.E., Francis A. Dibiano and William P. Ball, EE July 97, p628-641.
NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.
Surfactants for Separation Processes: Enhanced Ultrafiltration, Z. Sadaoui, C. Azoug, G. Charbit and F. Charbit, EE Aug. 98, p695-700.

Financing
Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.
Forum: Privatization of Public Works, John F. Williams and J.B. Neethling, EE Apr. 98, p302-303.

Finite differences
Linking Hydrodynamic and Water Quality Models with Different Scales, Joseph F. Atkinson, Sunil K. Gupta, Joseph V. DePinto and Ralph R. Rumer, EE May 98, p399-408.

Fish protection
Methodology for Predicting Cooling Water Effects on Fish, Cem Çakiroğlu and Coşkun Yurteri, EE July 98, p612-618.

Fixed-bed operations
Surface Complexation Modeling of Metal Removal by Recycled Iron Sorbent, Edward H. Smith, EE Oct. 98, p913-920.

Flocculants
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.
Alum Residual Floc Interactions with an Advancing Ice/Water Interface, Philip J. Parker, Anthony G. Collins and John P. Dempsey, EE Mar. 98, p249-253.

Flocculation
Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.

Flotation
Classification of Flotation Processes in Wastewater Decontamination, Nicholai N. Voronin and Igor A. Dibrov, EE May 98, p469-472.

Flow
Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.

Flow distribution

Multi-Fed Upflow Anaerobic Filter: Development and Features, A. Puñal, R. Méndez and J. M. Lema, EE Dec. 98, p1188-1192.

TCE and Flow Monitoring Methods Using an Existing Water Supply Well, Gary R. Foote, Nancy T. Bice, Lisa D. Rowles and John D. Gallinatti, EE June 98, p564-571.

Flue gases

Design Model for Selective Catalytic Reduction Process: Solution of Convective Diffusion and NO_x Reaction, Hsunling Bai and Jong-Wen Chwu, EE Dec. 98, p1220-1227.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Fluid flow

Experimental and Numerical Evaluation of LNAPL Lens and Polluted Capillary Fringe Thickness, Lizette R. Chevalier, EE Feb. 98, p156-161.

Fluid mechanics

Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.

Fluidized bed processors

Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Fluidized Bed for Removing Iron and Acidity from Acid Mine Drainage, Harry R. Diz and John T. Novak, P.E., EE Aug. 98, p701-708.

Fly ash

Fly Ash Binders in the Stabilization of FGD Wastes, R. Ibáñez, A. Andrés, J. A. Irabien and I. Ortiz, EE Jan. 98, p43-50.

Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.

Forestry

Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.

Stream Temperature Simulation of Forested Riparian Areas: II. Model Application, Y. David Chen, Steven C. McCutcheon, Douglas J. Norton and Wade L. Nutter, EE Apr. 98, p316-328.

Fouling

Existence of Critical Recovery and Impacts of Operational Mode on Potable Water Microfiltration, Shankararaman Chellam and Joseph G. Jacangelo, EE Dec. 98, p1211-1219.

NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.

Fractures

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Freezing

Alum Residual Floc Interactions with an Advancing Ice/Water Interface, Philip J. Parker, Anthony G. Collins and John P. Dempsey, EE Mar. 98, p249-253.

Full-scale tests

Decomposition of Specific Materials Buried within Sanitary Landfills, Timothy D. Baldwin, Jeffrey Stinson and Robert K. Ham, EE Dec. 98, p1193-1202.

Gas flow

BEM Solution for Design of Trenches in Multilayered Landfills, V. Popov, H. Power and J. M. Baldasano, EE Jan. 98, p59-66.

Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Gas formation

Flux Chamber Measurements of Mass Transfer Rates, Shafik E. Sadek, Terry C. Lee, J. Donald Smith and Rolf Gebel, EE Feb. 98, p111-121.

Gasoline

Clean Air, Dirty Water? The MTBE Story, Daniel P. Y. Chang and Jerold A. Last, EE Oct. 98, p910-912.

Global warming

Carbon Dioxide Reduction-A Noble Cause, But a Challenging Task, Oliver J. Hao and Pen-Chi Chiang, EE Nov. 98, p1033-1034.

Goals

Environmental Engineering Forum (Closure of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, vol. 122, No. 9, pp. 779-784), Steven I. Safferman, Vivek P. Utgikar and Sarwan S. Sandhu, EE Mar. 98, p201.

Granular media

Apparatus for Streaming Potential Measurements on Granular Filter Media, S. E. Truesdail, G. B. Westermann-Clark and D. O. Shah, EE Dec. 98, p1228-1232.

New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

Ground water

Chlorinated Ethene Reduction by Cast Iron: Sorption and Mass Transfer, David R. Burris, Richelle M. Allen-King, Valipuram S. Manoranjan, Timothy J. Campbell, Gregory A. Loraine and Baolin Deng, EE Oct. 98, p1012-1019.

Considerations for Monitoring Permeable Ground-Water Treatment Walls, Scott D. Warner, Carol L. Yamane, John D. Gallinatti and Deborah A. Hankins, EE June 98, p524-529.

Discrete-Level Ground Water Monitoring System for Containment and Remedial Performance Assessment Objectives, Robert W. Puls and Cynthia J. Paul, EE June 98, p549-553.

Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.

Evaluation of Containment Systems Using Hydraulic Head Data, Randall R. Ross and Milovan S. Beljin, EE June 98, p575-578.

Hierarchy of Monitoring Techniques for Subsurface Contaminants and Containment Systems, Hillary I. Inyang and David Betsill, EE June 98, p488.

Mass Loss from LNAPL Pools under Fluctuating Water Table Conditions, Lakshmi N. Reddi, Wei Han and M. K. Banks, EE Dec. 98, p1171-1177.

Modeling BMPs to Optimize Municipal Wastewater Land Treatment System, Michael D. Dukes and William F. Ritter, EE Dec. 98, p1178-1187.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Site Characterization and Containment Assessment with Dissolved Gases, William E. Sanford and D. Kip Solomon, EE June 98, p572-574.

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Three-Dimensional Model for Subsurface Transport and Biodegradation, Dan W. Waddill and Mark A. Widdowson, EE Apr. 98, p336-344.

Ground-water flow

TCE and Flow Monitoring Methods Using an Existing Water Supply Well, Gary R. Foote, Nancy T. Bice, Lisa D. Rowles and John D. Gallinatti, EE June 98, p564-571.

Ground-water pollution

Comparative Kinetics of Bacterial Reduction of Chromium, Eric A. Schmieman, David R. Yonge, Mahesh A. Rege, James N. Petersen, Charles E. Turick, Donald L. Johnstone and William A. Apel, EE May 98, p449-455.

Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.

Experimental and Numerical Evaluation of LNAPL Lens and Polluted Capillary Fringe Thickness, Lizette R. Chevalier, EE Feb. 98, p156-161.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

A New Clay Liner to Reduce Ground-Water Contamination from Heavy Metals, Tsau-Don Tasi and P. Aarne Vesilind, EE Nov. 98, p1061-1065.

Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Gypsum

Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

Hazardous waste

Appraisal of Some Evolving Environmental Issues Relevant to Underground Space Development, Hilary I. Inyang, EE Mar. 98, p197.

Stochastic Risk Assessment of Sites Contaminated by Hazardous Wastes, Bill Batchelor, Juan Valdés and Vishwanathan Araganth, EE Apr. 98, p380-388.

Hazardous waste sites

Evaluation of Containment Systems Using Hydraulic Head Data, Randall R. Ross and Milovan S. Beljin, EE June 98, p575-578.

Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.

Metal Ion Leaching From Contaminated Soils: Model Calibration and Application, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Dec. 98, p1150-1158.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

Health hazards

The Ethics and Science of Environmental Regulation, P. Aarne Vesilind and Lauren Bartlett, EE Aug. 98, p675-676.

Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.

Health regulations

The Ethics and Science of Environmental Regulation, P. Aarne Vesilind and Lauren Bartlett, EE Aug. 98, p675-676.

Heavy metals

Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.

Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Metal Ion Leaching From Contaminated Soils: Model Calibration and Application, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Dec. 98, p1150-1158.

A New Clay Liner to Reduce Ground-Water Contamination from Heavy Metals, Tsau-Don Tasi and P. Aarne Vesilind, EE Nov. 98, p1061-1065.

Particle Size Distribution and Metal Content in Street Sediments, Maria Viklander, EE Aug. 98, p761-766.

Surface Complexation Modeling of Metal Removal by Recycled Iron Sorbent, Edward H. Smith, EE Oct. 98, p913-920.

Surfactants for Separation Processes: Enhanced Ultrafiltration, Z. Sadaoui, C. Azoug, G. Charbit and F. Charbit, EE Aug. 98, p695-700.

Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Highways

Characterization and Pollutant Loading Estimation for Urban and Rural Highway Runoff, Jy S. Wu, Craig J. Allan, William L. Saunders and Jack B. Evett, EE July 98, p584-592.

Characterization of Highway Runoff in Austin, Texas, Area, Michael E. Barrett, Lyn B. Irish, Jr., Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Feb. 98, p131-137.

Performance of Vegetative Controls for Treating Highway Runoff, Michael E. Barrett, Patrick M. Walsh, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Nov. 98, p1121-1128.

Use of Regression Models for Analyzing Highway Stormwater Loads, Lyn B. Irish, Jr., Michael E. Barrett, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Oct. 98, p987-993.

History
Environmental Engineering Forum (Discussion of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, Vol. 122, No. 9, pp. 779-784), Navnit Padival, P.E., EE Mar. 98, p199-201.

Humidity
Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

Hydraulic conductivity
Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

Hydraulic gradients
Monitoring Hydraulic Gradient Using Three-Point Estimator, Stephen E. Silliman and Craig Frost, EE June 98, p517-523.

Hydraulic loading
Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Hydraulics
Aeration Performance of Triangular Plan-Form Labyrinth Weirs, Peter R. Wormleaton and Ebrahim Soufiani, EE Aug. 98, p709-719.

Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

TCE and Flow Monitoring Methods Using an Existing Water Supply Well, Gary R. Foote, Nancy T. Bice, Lisa D. Rowles and John D. Gallinatti, EE June 98, p564-571.

Hydrocarbons
Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.

Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Three-Dimensional Model for Subsurface Transport and Biodegradation, Dan W. Waddill and Mark A. Widdowson, EE Apr. 98, p336-344.

Treatment of Styrene-Contaminated Air Stream in Biotrickling Filter Packed with Slags, Ming-Shean Chou and Chih-Chien Hsiao, EE Sept. 98, p844-850.

Hydrodynamics
Linking Hydrodynamic and Water Quality Models with Different Scales, Joseph F. Atkinson, Sunil K. Gupta, Joseph V. DePinto and Ralph R. Rumer, EE May 98, p399-408.

Physical Modeling of Hydrodynamic Separators Operating with Underflow, R. A. Fenner and J. N. Tyack, EE Sept. 98, p881-886.

Hydrogen peroxide
Evaluating Molecular Ozone and Radical Pathways of Bromate Formation During Ozonation, Kenan Ozekin, Paul Westerhoff, Gary L. Amy and Mohamed Siddiqui, EE May 98, p456-462.

Iron Oxide Surface Catalyzed Oxidation of Quinoline by Hydrogen Peroxide, Richard L. Valentine and H. C. Ann Wang, EE Jan. 98, p31-38.

Hydrogen sulfide
Comparison of Autotrophic and Mixotrophic Biofilters for H_2S Removal, Ying-Chien Chung, Chihpin Huang, Jill Ruhsing Pan and Ching-Ping Tseng, EE Apr. 98, p362-367.

Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Hydrographs
Models of Storm Sewers Discharge: I. Description, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p593-599.

Impact
Methodology for Predicting Cooling Water Effects on Fish, Cem Çakiroğlu and Coşkun Yurteri, EE July 98, p612-618.

Impingement
Methodology for Predicting Cooling Water Effects on Fish, Cem Çakiroğlu and Coşkun Yurteri, EE July 98, p612-618.

Incineration
Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

Industrial wastes
Determination of Oxygen Diffusion Coefficient in Wastewaters, Sheng H. Lin, Tze M. Lin and Horng G. Leu, EE Mar. 98, p265-271.

Industries
Future Direction of Environmental Engineering in Manufacturing Industries, Irving T. Salmeen and Byung R. Kim, EE July 98, p580.

Infiltration
Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.

Influents
Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.

Multi-Fed Upflow Anaerobic Filter: Development and Features, A. Puñal, R. Méndez and J. M. Lema, EE Dec. 98, p1188-1192.

Infrastructure
Forum: Privatization of Public Works, John F. Williams and J.B. Neethling, EE Apr. 98, p302-303.

Inorganic contaminants
Discrete-Level Ground Water Monitoring System for Containment and Remedial Performance Assessment Objectives, Robert W. Puls and Cynthia J. Paul, EE June 98, p549-553.

Instrumentation
Apparatus for Streaming Potential Measurements on Granular Filter Media, S. E. Truesdail, G. B. Westermann-Clark and D. O. Shah, EE Dec. 98, p1228-1232.

Interactions
Alum Residual Floc Interactions with an Advancing Ice/Water Interface, Philip J. Parker, Anthony G. Collins and John P. Dempsey, EE Mar. 98, p249-253.

Linking Hydrodynamic and Water Quality Models with Different Scales, Joseph F. Atkinson, Sunil K. Gupta, Joseph V. DePinto and Ralph R. Rumer, EE May 98, p399-408.

Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Internships
Environmental Engineering Forum (Discussion of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, Vol. 122, No. 9, pp. 779-784), Navnit Padival, P.E., EE Mar. 98, p199-201.

Interpolation
Variance of Load Estimates Derived by Piecewise Linear Interpolation, George Shih, Xiaosong Wang, H. J. Grimshaw and Joel VanArman, EE Nov. 98, p1114-1120.

Ion exchange
Effect of Bromide Ion on Haloacetic Acid Formation During Chlorination of Biscayne Aquifer Water, Wells W. Wu and Paul A. Chadik, EE Oct. 98, p932-938.

Nanofiltration of Natural Organic Matter: pH and Ionic Strength Effects, Anne Braghetta, P.E., Francis A. Dibiano and William P. Ball, EE July 97, p628-641.

Nitrate Removal from Drinking Water—Review, Anoop Kapoor and T. Viraraghavan, EE Apr. 97, p371-380.

Iron
Fluidized Bed for Removing Iron and Acidity from Acid Mine Drainage, Harry R. Diz and John T. Novak, P.E., EE Aug. 98, p701-708.

Iron compounds
Decontamination of U-Rich Waters by Granular Iron, Laurent Charlet, E. Liger and Gerasimo, EE Jan. 98, p25-30.

Iron Oxide Surface Catalyzed Oxidation of Quinoline by Hydrogen Peroxide, Richard L. Valentine and H. C. Ann Wang, EE Jan. 98, p31-38.

Iron ore
Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Isotherms
New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.

Jets
Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.

Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Transport of Dry Aerosols in Turbulent Jets, R. Balachandar, P.E., S. R. Mulpuru and M. H. Ungurian, EE Oct. 98, p994-1002.

Kinematics
Editor's Note: Papers in This Issue, Byung R. Kim, EE Sept. 98, p782.

Kinetics
Chlorine Demand and Trihalomethane Formation Kinetics: a Second-Order Model, Robert M. Clark, EE Jan. 98, p16-24.

Comparative Kinetics of Bacterial Reduction of Chromium, Eric A. Schmieman, David R. Yonge, Mahesh A. Rege, James N. Petersen, Charles E. Turick, Donald L. Johnstone and William A. Apel, EE May 98, p449-455.

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Metal Ion Leaching from Contaminated Soils: Model Development, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Mar. 98, p278-287.

Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.

Reactor Models for Horseradish Peroxidase–Catalyzed Aromatic Removal, Ian D. Buchanan, James A. Nicell and Monika Wagner, EE Sept. 98, p794-802.

Laboratory tests
High-Solids Anaerobic Digestion of Mixed Municipal and Industrial Waste, Jan A. Oleszkiewicz and Hector M. Poggi-Varaldo, EE Nov. 97, p1087-1092.

Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Steam Stripping Organics from "Fluidized" Soils (Versus Confined Soils), Arthur E. Lord, Jr., EE Apr. 98, p390-394.

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Lakes
Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.

Land application
Mixed-Integer Programming Approach for Designing Land Application Systems at a Regional Scale, David M. Crohn and Arthur C. Thomas, EE Feb. 98, p170-177.

Land treatment
Modeling BMPs to Optimize Municipal Wastewater Land Treatment System, Michael D. Dukes and William F. Ritter, EE Dec. 98, p1178-1187.

Landfills
Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

BEM Solution for Design of Trenches in Multilayered Landfills, V. Popov, H. Power and J. M. Baldasano, EE Jan. 98, p59-66.

Capillary Barriers and Subtitle D Covers: Estimating Equivalency, Carl E. Morris and John C. Stormont, EE Jan. 97, p3-10.

Decomposition of Specific Materials Buried within Sanitary Landfills, Timothy D. Baldwin, Jeffrey Stinson and Robert K. Ham, EE Dec. 98, p1193-1202.

Fly Ash Binders in the Stabilization of FGD Wastes, R. Ibáñez, A. Andrés, J. A. Irabien and I. Ortiz, EE Jan. 98, p43-50.

Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.

Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.

A New Clay Liner to Reduce Ground-Water Contamination from Heavy Metals, Tsau-Don Tasi and P. Aarne Vesilind, EE Nov. 98, p1061-1065.

Photochemical Destruction of Cyanide in Landfill Leachate, B. R. Kim, D. H. Podsiadlik, E. M. Kalis, J. L. Hartlund and W. A. Gaines, EE Nov. 98, p1108-1113.

Leachates

Fly Ash Binders in the Stabilization of FGD Wastes, R. Ibáñez, A. Andrés, J. A. Irabien and I. Ortiz, EE Jan. 98, p43-50.

Photochemical Destruction of Cyanide in Landfill Leachate, B. R. Kim, D. H. Podsiadlik, E. M. Kalis, J. L. Hartlund and W. A. Gaines, EE Nov. 98, p1108-1113.

Leaching

Editor's Note: Papers in this Issue, EE May 98, p396.

Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

Influence of Carbonation on Leaching of Cementitious Wasteforms, Md. Sazzad Bin Shafique, John C. Walton, Neyda Gutierrez, Robert W. Smith and Anthony J. Tarquin, EE May 98, p463-467.

Metal Ion Leaching From Contaminated Soils: Model Calibration and Application, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Dec. 98, p1150-1158.

Metal Ion Leaching from Contaminated Soils: Model Development, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Mar. 98, p278-287.

Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.

Lead

Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.

Washing of Various Lead Compounds from a Contaminated Soil Column, Allen P. Davis and Bhaumik V. Hotha, EE Nov. 98, p1066-1075.

Lime

Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

A New Clay Liner to Reduce Ground-Water Contamination from Heavy Metals, Tsau-Don Tasi and P. Aarne Vesilind, EE Nov. 98, p1061-1065.

Liners

Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

Loading rate

Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Magnetic field effects

Cr-Polluted Soil Studied by High Gradient Magnetic Separation and Electron Probe, R. A. Rikers, J. H. L. Voncken and W. L. Dalmijn, EE Dec. 98, p1159-1164.

Maintenance

Forum: Privatization of Public Works, John F. Williams and J.B. Neethling, EE Apr. 98, p302-303.

Management systems

Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Manufacturing

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

Future Direction of Environmental Engineering in Manufacturing Industries, Irving T. Salmeen and Byung R. Kim, EE July 98, p580.

Mixed Policies for Recovery and Disposal of Multiple-Type Consumer Products, H. R. Krikke, A. van Harten and P. C. Schuur, EE Apr. 98, p368-379.

Mass transfer

Chlorinated Ethene Reduction by Cast Iron: Sorption and Mass Transfer, David R. Burris, Richelle M. Allen-King, Valipuram S. Manoranjan, Timothy J. Campbell, Gregory A. Loraine and Baolin Deng, EE Oct. 98, p1012-1019.

Design Model for Selective Catalytic Reduction Process: Solution of Convective Diffusion and NO_x Reaction, Hsunling Bai and Jong-Wen Chwu, EE Dec. 98, p1220-1227.

Flux Chamber Measurements of Mass Transfer Rates, Shafik E. Sadek, Terry C. Lee, J. Donald Smith and Rolf Gebel, EE Feb. 98, p111-121.

Influence of Water Content on SVE in a Silt Loam Soil, B. Harper, W. H. Stiver and R. G. Zytner, EE Nov. 98, p1047-1053.

NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Water-to-Air Mass Transfer of VOCs: Laboratory-Scale Air Sparging System, Keh-Ping Chao, Say Kee Ong and Angelos Protopapas, EE Nov. 98, p1054-1060.

Mass transport

Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.

Mathematical models

Editorial: Donald J. O'Connor (1922-1997), An Historic Teacher and Scholar of Environmental Engineering, Robert V. Thomann, Dominic M. DiToro and Wu-Seng Lung, EE Feb. 98, p82-84.

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.

Modeling BMPs to Optimize Municipal Wastewater Land Treatment System, Michael D. Dukes and William F. Ritter, EE Dec. 98, p1178-1187.

Models of Storm Sewers Discharge: 1. Description, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p593-599.

Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.

Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.

Measurement

Does Filtration Efficiency Affect Measurements of Particle Chemical Composition? Carlos M. Romo-Kröger, EE July 98, p669-671.

Evaluation of Water Quality Factors in Storm Runoff from Paved Areas, Ana B. Deletic and C. T. Maksimovic, EE Sept. 98, p869-879.

Flux Chamber Measurements of Mass Transfer Rates, Shafik E. Sadek, Terry C. Lee, J. Donald Smith and Rolf Gebel, EE Feb. 98, p111-121.

Membrane processes

Evaluation of Membrane Filtration and Ozonation Processes for Treatment of Reaction Dye Wastewater, Jiangning Wu, Mark A. Eiteman and S. Edward Law, EE Mar. 98, p272-277.

Membranes

Nanofiltration of Natural Organic Matter: pH and Ionic Strength Effects, Anne Braghetta, P.E., Francis A. Dibiano and William P. Ball, EE July 97, p628-641.

NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.

Surfactants for Separation Processes: Enhanced Ultrafiltration, Z. Sadaoui, C. Azoug, G. Charbit and F. Charbit, EE Aug. 98, p695-700.

Mercury

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Mercury Disposal Via Sulfur Reactions, Lawrence N. Oji, EE Oct. 98, p945-952.

Metal finishing

Effect of Sodium Xylenesulfonate on Zinc Removal from Wastewater, Robert B. Saari, John S. Stansbury and Frederic C. Laquer, EE Oct. 98, p939-944.

Metals

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Effect of Sodium Xylenesulfonate on Zinc Removal from Wastewater, Robert B. Saari, John S. Stansbury and Frederic C. Laquer, EE Oct. 98, p939-944.

Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.

Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.

Influence of Carbonation on Leaching of Cementitious Wasteforms, Md. Sazzad Bin Shafique, John C. Walton, Neyda Gutierrez, Robert W. Smith and Anthony J. Tarquin, EE May 98, p463-467.

Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Metal Ion Leaching from Contaminated Soils: Model Development, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Mar. 98, p278-287.

Washing of Various Lead Compounds from a Contaminated Soil Column, Allen P. Davis and Bhaumik V. Hotha, EE Nov. 98, p1066-1075.

Methane

Multi-Fed Upflow Anaerobic Filter: Development and Features, A. Puñal, R. Méndez and J. M. Lema, EE Dec. 98, p1188-1192.

Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Methane generation

Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.

Microbes

Chlorine Demand and Trihalomethane Formation Kinetics: a Second-Order Model, Robert M. Clark, EE Jan. 98, p16-24.

Derivation of Mean Cell Residence Time Formula, Nicolas G. Adrien, P.E., EE May 98, p473-474.

Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Growth Kinetics of Mixed Cultures under Chlorate-Reducing Conditions, Bruce E. Logan, Adam R. Bliven, Shari R. Olsen and Rabindranath Patnaik, EE Oct. 98, p1008-1011.

Microbial activity

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.

Three-Dimensional Model for Subsurface Transport and Biodegradation, Dan W. Waddill and Mark A. Widdowson, EE Apr. 98, p336-344.

Toxicity of Acrylic Acid to Acetate-Enriched *Methanosarcina* Cultures, Göksel N. Demirer and Richard E. Speece, EE Apr. 98, p345-352.

Mixing
Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.

Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Model studies
Stream Temperature Simulation of Forested Riparian Areas: II. Model Application, Y. David Chen, Steven C. McCutcheon, Douglas J. Norton and Wade L. Nutter, EE Apr. 98, p316-328.

Model verification
Application of Inverse Method to Calibrate Estuarine Eutrophication Model, J. Shen and A. Y. Kuo, EE May 98, p409-418.

Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.

Modeling
ANSWERS-2000: Runoff and Sediment Transport Model, Faycal Bouraoui and Theo A. Dillaha, EE June 96, p493-502.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Sept. 98, p782.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.

The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Metal Ion Leaching from Contaminated Soils: Model Development, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Mar. 98, p278-287.

Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.

Modeling Chlorine Inactivation Requirements of *Cryptosporidium Parvum* Oocysts, L. L. Gyürék, G. R. Finch and M. Belosevic, EE Sept. 97, p865-875.

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.

Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.

Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Tidal and Transport Modeling by Using Turbulence $\bar{k}$ - $\bar{w}$ Model, Li-Ren Yu and A. M. Righetto, EE Mar. 98, p212-221.

Trends in BOD/DO Modeling for Wasteload Allocations, Wu-Seng Lung, EE Oct. 98, p1004-1007.

Models
Analytical Inverse Model for Multicomponent Soil Vapor Extraction, Clifford K. Ho, EE June 98, p504-509.

Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Fate and Transport of Metam Spill in Sacramento River, P. F. Wang, T. Mill, J. L. Martin and T. A. Wool, EE July 97, p704-712.

Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.

Genetic Algorithms for Calibrating Water Quality Models, Ann E. Mulligan and Linfield C. Brown, EE Mar. 98, p202-211.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Linking Hydrodynamic and Water Quality Models with Different Scales, Joseph F. Atkinson, Sunil K. Gupta, Joseph V. DePinto and Ralph R. Rumer, EE May 98, p399-408.

Metal Ion Leaching From Contaminated Soils: Model Calibration and Application, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Dec. 98, p1150-1158.

Model Calibration Forum Paper Discussion, Thomas M. Walski, EE Jan. 98, p3.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

Reactor Models for Horseradish Peroxidase–Catalyzed Aromatic Removal, Ian D. Buchanan, James A. Nicell and Monika Wagner, EE Sept. 98, p794-802.

Moisture
Effects of Moisture on Pyrolysis of Polypropylene, Chao-Hsiung Wu, Ching-Yuan Chang and Jyh-Ping Lin, EE Sept. 98, p892-896.

Monitoring
Air Flow as Monitoring Technique for Landfill Liners, J. C. Stormont, M. D. Ankeny and J. A. Kelsey, EE June 98, p539-544.

Considerations for Monitoring Permeable Ground-Water Treatment Walls, Scott D. Warner, Carol L. Yamane, John D. Gallinatti and Deborah A. Hankins, EE June 98, p524-529.

Determination of Heat Production Zones at Open-Cast Mine Dump, M. Schreck, M. Nishigaki, H.-R. Gläser, G. Christoph, S. Großwig, E. Hurtig, M. Kasch and K. Kühn, EE July 98, p646-651.

Discrete-Level Ground Water Monitoring System for Containment and Remedial Performance Assessment Objectives, Robert W. Puls and Cynthia J. Paul, EE June 98, p549-553.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.

Evaluation of Containment Systems Using Hydraulic Head Data, Randall R. Ross and Milovan S. Beljin, EE June 98, p575-578.

Hierarchy of Monitoring Techniques for Subsurface Contaminants and Containment Systems, Hillary I. Inyang and David Betsill, EE June 98, p488.

Monitoring Hydraulic Gradient Using Three-Point Estimator, Stephen E. Silliman and Craig Frost, EE June 98, p517-523.

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Numerical Simulation of Tracer Tests in Heterogeneous Aquifer, C. Zheng and J. J. Jiao, EE June 98, p510-516.

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Site Characterization and Containment Assessment with Dissolved Gases, William E. Sanford and D. Kip Solomon, EE June 98, p572-574.

TCE and Flow Monitoring Methods Using an Existing Water Supply Well, Gary R. Foote, Nancy T. Bice, Lisa D. Rowles and John D. Gallinatti, EE June 98, p564-571.

Monte Carlo method
Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.

Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

Municipal wastes
Effects of Moisture on Pyrolysis of Polypropylene, Chao-Hsiung Wu, Ching-Yuan Chang and Jyh-Ping Lin, EE Sept. 98, p892-896.

High-Solids Anaerobic Digestion of Mixed Municipal and Industrial Waste, Jan A. Oleszkiewicz and Hector M. Poggi-Varaldo, EE Nov. 97, p1087-1092.

Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.

Time Series Analysis of Municipal Solid Waste Generation Rates, Anastasia Katsamaki, Sander Willems and Evan Diamadopoulos, EE Feb. 98, p178-183.

Nitrates
Modeling BMPs to Optimize Municipal Wastewater Land Treatment System, Michael D. Dukes and William F. Ritter, EE Dec. 98, p1178-1187.

Nitrate Removal from Drinking Water—Review, Anoop Kapoor and T. Viraraghavan, EE Apr. 97, p371-380.

Nitrification
Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Nitrogen oxide
Design Model for Selective Catalytic Reduction Process: Solution of Convective Diffusion and NO_x Reaction, Hsunling Bai and Jong-Wen Chwu, EE Dec. 98, p1220-1227.

Nitrogen removal
Nitrogen Removal in Intermittently Aerated Biofilm Airlift Reactor, W. A. J. van Benthum, J. M. Garrido, J. P. M. Mathijssen, J. Sunde, M. C. M. van Loosdrecht and J. J. Heijnen, EE Mar. 98, p239-248.

Nonaqueous phase liquids
Bench-Scale Investigation on Vibrorecovery of NAPL Ganglia from Sands, Lakshmni N. Reddi, John Nichols and George P. Korfiatis, EE Sept. 98, p897-901.

Experimental and Numerical Evaluation of LNAPL Lens and Polluted Capillary Fringe Thickness, Lizette R. Chevalier, EE Feb. 98, p156-161.

Influence of Water Content on SVE in a Silt Loam Soil, B. Harper, W. H. Stiver and R. G. Zytner, EE Nov. 98, p1047-1053.

Mass Loss from LNAPL Pools under Fluctuating Water Table Conditions, Lakshmi N. Reddi, Wei Han and M. K. Banks, EE Dec. 98, p1171-1177.

NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.

Nondestructive tests
Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.

Nonpoint pollution
ANSWERS-2000: Runoff and Sediment Transport Model, Faycal Bouraoui and Theo A. Dillaha, EE June 96, p493-502.

Characterization and Pollutant Loading Estimation for Urban and Rural Highway Runoff, Jy S. Wu, Craig J. Allan, William L. Saunders and Jack B. Evett, EE July 98, p584-592.

Characterization of Highway Runoff in Austin, Texas, Area, Michael E. Barrett, Lyn B. Irish, Jr., Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Feb. 98, p131-137.

Evaluation of Water Quality Factors in Storm Runoff from Paved Areas, Ana B. Deletic and C. T. Maksimovic, EE Sept. 98, p869-879.

Use of Regression Models for Analyzing Highway Stormwater Loads, Lyn B. Irish, Jr., Michael E. Barrett, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Oct. 98, p987-993.

Numerical models
Capillary Barriers and Subtitle D Covers: Estimating Equivalency, Carl E. Morris and John C. Stormont, EE Jan. 97, p3-10.

Mass Loss from LNAPL Pools under Fluctuating Water Table Conditions, Lakshmi N. Reddi, Wei Han and M. K. Banks, EE Dec. 98, p1171-1177.

Numerical Simulation of Tracer Tests in Heterogeneous Aquifer, C. Zheng and J. J. Jiao, EE June 98, p510-516.

Three-Dimensional Model for Subsurface Transport and Biodegradation, Dan W. Waddill and Mark A. Widdowson, EE Apr. 98, p336-344.

Nutrient loading
Variance of Load Estimates Derived by Piecewise Linear Interpolation, George Shih, Xiaosong Wang, H. J. Grimshaw and Joel VanArman, EE Nov. 98, p1114-1120.

Nutrients
Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.
Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.
Eutrophication Model for a Coastal Bay in Hong Kong, K. W. Chau and Haisheng Jin, EE July 98, p628-638.

Obituaries
Editorial: Donald J. O'Connor (1922-1997), An Historic Teacher and Scholar of Environmental Engineering, Robert V. Thomann, Dominic M. DiToro and Wu-Seng Lung, EE Feb. 98, p82-84.

O'Connor, Donald J.
Editorial: Donald J. O'Connor (1922-1997), An Historic Teacher and Scholar of Environmental Engineering, Robert V. Thomann, Dominic M. DiToro and Wu-Seng Lung, EE Feb. 98, p82-84.

Open pit mining
Determination of Heat Production Zones at Open-Cast Mine Dump, M. Schreck, M. Nishigaki, H.-R. Gläser, G. Christoph, S. Großwig, E. Hurtig, M. Kasch and K. Kühn, EE July 98, p646-651.

Operation
Forum: Privatization of Public Works, John F. Williams and J.B. Neethling, EE Apr. 98, p302-303.

Optimal design
Optimal Design for Anaerobic Pretreatment of Municipal Wastewater, Bruce J. Alderman, Thomas L. Theis and Anthony G. Collins, EE Jan. 98, p4-10.

Optimization
High-Solids Anaerobic Digestion of Mixed Municipal and Industrial Waste, Jan A. Oleszkiewicz and Hector M. Poggi-Varaldo, EE Nov. 97, p1087-1092.
Modeling BMPs to Optimize Municipal Wastewater Land Treatment System, Michael D. Dukes and William F. Ritter, EE Dec. 98, p1178-1187.

Organic chemicals
Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Organic matter
Adsorption of Natural Organic Matter on Preformed Aluminum Hydroxide Flocs, Purnendu Bose and David A. Reckhow, EE Sept. 98, p803-811.
Evaluating Molecular Ozone and Radical Pathways of Bromate Formation During Ozonation, Kenan Ozekin, Paul Westerhoff, Gary L. Amy and Mohamed Siddiqui, EE May 98, p456-462.
Mathematical Model for Methane Production from a Landfill Bioreactor, Jiunn-Jyi Lay, Yu-You Li and Tatsuya Noike, EE Aug. 98, p730-736.
Nanofiltration of Natural Organic Matter: pH and Ionic Strength Effects, Anne Braghetta, P.E., Francis A. Dibiano and William P. Ball, EE July 97, p628-641.
NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.
Overall Adsorption Isotherm of Natural Organic Matter, Yoshihiko Matsui, Akira Yuasa and Fu-Sheng Li, EE Nov. 98, p1099-1107.
Steam Stripping Organics from "Fluidized" Soils (Versus Confined Soils), Arthur E. Lord, Jr., EE Apr. 98, p390-394.

Outfall sewers
Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.
Rapid Sizing and Performance Evaluation of Submarine Outfalls with Line Diffusers, Maria A. Economopoulou and Alexander P. Economopoulos, EE Feb. 98, p138-145.
Returning Impaired Marine Outfall Diffusers to Full Service, Robert A. Grace, EE Mar. 97, p297-303.

Overflow
Physical Modeling of Hydrodynamic Separators Operating with Underflow, R. A. Fenner and J. N. Tyack, EE Sept. 98, p881-886.

Overland flow
Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.

Owners
Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

Oxidation
Advanced Oxidation Processes for Degradation of 2,4-Dichlor- and 2,4-Dimethylphenol, Marina Trapido, Yelena Veressinina and Rein Munter, EE Aug. 98, p690-694.
In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.
Iron Oxide Surface Catalyzed Oxidation of Quinoline by Hydrogen Peroxide, Richard L. Valentine and H. C. Ann Wang, EE Jan. 98, p31-38.
Photochemical Destruction of Cyanide in Landfill Leachate, B. R. Kim, D. H. Podsiadlik, E. M. Kalis, J. L. Hartlund and W. A. Gaines, EE Nov. 98, p1108-1113.

Oxygen demand
Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.

Oxygenation
Clean Air, Dirty Water? The MTBE Story, Daniel P. Y. Chang and Jerold A. Last, EE Oct. 98, p910-912.

Ozone
Evaluating Molecular Ozone and Radical Pathways of Bromate Formation During Ozonation, Kenan Ozekin, Paul Westerhoff, Gary L. Amy and Mohamed Siddiqui, EE May 98, p456-462.
Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.
Photochemical Destruction of Cyanide in Landfill Leachate, B. R. Kim, D. H. Podsiadlik, E. M. Kalis, J. L. Hartlund and W. A. Gaines, EE Nov. 98, p1108-1113.

Ozonization
Evaluation of Membrane Filtration and Ozonation Processes for Treatment of Reaction Dye Wastewater, Jiangning Wu, Mark A. Eiteman and S. Edward Law, EE Mar. 98, p272-277.

Parameters
Application of Inverse Method to Calibrate Estuarine Eutrophication Model, J. Shen and A. Y. Kuo, EE May 98, p409-418.
Estimation of Biokinetic Parameters for Unsaturated Soils, Brent E. Sleep and Lynda J. Mulcahy, EE Oct. 98, p959-969.
Genetic Algorithms for Calibrating Water Quality Models, Ann E. Mulligan and Linfield C. Brown, EE Mar. 98, p202-211.

Particle size
Does Filtration Efficiency Affect Measurements of Particle Chemical Composition? Carlos M. Romo-Kröger, EE July 98, p669-671.
Particle Size Distribution and Metal Content in Street Sediments, Maria Viklander, EE Aug. 98, p761-766.
Transport of Dry Aerosols in Turbulent Jets, R. Balachandar, P.E., S. R. Mulpuru and M. H. Ungurian, EE Oct. 98, p994-1002.

Particle size distribution
Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.
Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

Particles
Does Filtration Efficiency Affect Measurements of Particle Chemical Composition? Carlos M. Romo-Kröger, EE July 98, p669-671.
Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.
Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.
Transport of Dry Aerosols in Turbulent Jets, R. Balachandar, P.E., S. R. Mulpuru and M. H. Ungurian, EE Oct. 98, p994-1002.

Pathogens
Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.

Pavements
Evaluation of Water Quality Factors in Storm Runoff from Paved Areas, Ana B. Deletic and C. T. Maksimovic, EE Sept. 98, p869-879.
Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

PCE
Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.
Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Performance evaluation
Evaluation of Containment Systems Using Hydraulic Head Data, Randall R. Ross and Milovan S. Beljin, EE June 98, p575-578.

Permeability
Considerations for Monitoring Permeable Ground-Water Treatment Walls, Scott D. Warner, Carol L. Yamane, John D. Gallinatti and Deborah A. Hankins, EE June 98, p524-529.
Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.
Gas Permeability and Diffusivity in Undisturbed Soil: SVE Implications, Tjalfe G. Poulsen, Per Moldrup, Per Schjønning, Joel W. Massmann and Jens Aa. Hansen, EE Oct. 98, p979-986.
Nanofiltration of Natural Organic Matter: pH and Ionic Strength Effects, Anne Braghetta, P.E., Francis A. Dibiano and William P. Ball, EE July 97, p628-641.
Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Petroleum
Prediction of Carbon BTEX Adsorption Capacity Using Field Monitoring Data, Steve D. Giffin and Allen P. Davis, EE Oct. 98, p921-931.

pH
Chemical Reactions and Gas Transfer in Natural Waters, Donald J. O'Connor, EE Feb. 98, p85-93.
Nanofiltration of Natural Organic Matter: pH and Ionic Strength Effects, Anne Braghetta, P.E., Francis A. Dibiano and William P. Ball, EE July 97, p628-641.

Phenol
Advanced Oxidation Processes for Degradation of 2,4-Dichlor- and 2,4-Dimethylphenol, Marina Trapido, Yelena Veressinina and Rein Munter, EE Aug. 98, p690-694.
Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.
Reactor Models for Horseradish Peroxidase–Catalyzed Aromatic Removal, Ian D. Buchanan, James A. Nicell and Monika Wagner, EE Sept. 98, p794-802.
Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Phosphorus
Temperature Responses of Biological Phosphorus-Removing Activated Sludge, Pradeep Kumar, Indu Mehrotra and T. Viraraghavan, EE Feb. 98, p192-196.

Phosphorus removal
Temperature Responses of Biological Phosphorus-Removing Activated Sludge, Pradeep Kumar, Indu Mehrotra and T. Viraraghavan, EE Feb. 98, p192-196.

Physical properties
Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.
Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Plotting
Monitoring Hydraulic Gradient Using Three-Point Estimator, Stephen E. Silliman and Craig Frost, EE June 98, p517-523.

Pollutants

Characterization and Pollutant Loading Estimation for Urban and Rural Highway Runoff, Jy S. Wu, Craig J. Allan, William L. Saunders and Jack B. Evett, EE July 98, p584-592.

Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Tidal and Transport Modeling by Using Turbulence $\tilde{k}$ - $\tilde{w}$ Model, Li-Ren Yu and A. M. Righetto, EE Mar. 98, p212-221.

Pollution control

Performance of Vegetative Controls for Treating Highway Runoff, Michael E. Barrett, Patrick M. Walsh, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Nov. 98, p1121-1128.

Polymers

Effects of Moisture on Pyrolysis of Polypropylene, Chao-Hsiung Wu, Ching-Yuan Chang and Jyh-Ping Lin, EE Sept. 98, p892-896.

Ponds

Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.

Porous media

Analytical Inverse Model for Multicomponent Soil Vapor Extraction, Clifford K. Ho, EE June 98, p504-509.

NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Porous media flow

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Portland cements

Influence of Carbonation on Leaching of Cementitious Wasteforms, Md. Sazzad Bin Shafique, John C. Walton, Neyda Gutierrez, Robert W. Smith and Anthony J. Tarquin, EE May 98, p463-467.

Potable water

Chlorine Demand and Trihalomethane Formation Kinetics: a Second-Order Model, Robert M. Clark, EE Jan. 98, p16-24.

Comparative Risk Dilemma in Drinking Water Disinfection, Lewis A. Rossman, EE Sept. 98, p781.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Effect of Bromide Ion on Haloacetic Acid Formation During Chlorination of Biscayne Aquifer Water, Wells W. Wu and Paul A. Chadik, EE Oct. 98, p932-938.

Modeling Chlorine Inactivation Requirements of *Cryptosporidium Parvum* Oocysts, L. L. Gyürék, G. R. Finch and M. Belosevic, EE Sept. 97, p865-875.

Modeling Water Treatment Chemical Disinfection Kinetics, Lyndon L. Gyürék and Gordon R. Finch, EE Sept. 98, p783-793.

Nitrate Removal from Drinking Water—Review, Anoop Kapoor and T. Viraraghavan, EE Apr. 97, p371-380.

Precipitation

Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Privatization

Forum: Privatization of Public Works, John F. Williams and J.B. Neethling, EE Apr. 98, p302-303.

Probability distribution functions

Stochastic Risk Assessment of Sites Contaminated by Hazardous Wastes, Bill Batchelor, Juan Valdés and Vishwanathan Araganth, EE Apr. 98, p380-388.

Professional development

Environmental Engineering: Changes Then, Now, and Next, EE Jan. 98, p1.

Projects

Editorial, Peter J. Filanc and J. B. Neethling, EE Dec. 98, p1147-1148.

Public participation

Environmental Engineering: Changes Then, Now, and Next, EE Jan. 98, p1.

Public service

My Advice to the Young Engineer—Learn to Think, Riley N. Kinman, EE Aug. 98, p673.

Public welfare

My Advice to the Young Engineer—Learn to Think, Riley N. Kinman, EE Aug. 98, p673.

Public works

Forum: Privatization of Public Works, John F. Williams and J.B. Neethling, EE Apr. 98, p302-303.

Publications

Editor's Note: Papers of Interest, Byung R. Kim, EE Feb. 98, p81.

Pyrolysis

Effects of Moisture on Pyrolysis of Polypropylene, Chao-Hsiung Wu, Ching-Yuan Chang and Jyh-Ping Lin, EE Sept. 98, p892-896.

Pyrolysis-Based Material Recovery from Molding Resin for Electronic Parts, Masatoshi Iji and Yuji Ikuta, EE Sept. 98, p821-828.

Radioactive wastes

Appraisal of Some Evolving Environmental Issues Relevant to Underground Space Development, Hilary I. Inyang, EE Mar. 98, p197.

Mercury Disposal Via Sulfur Reactions, Lawrence N. Oji, EE Oct. 98, p945-952.

Reaeration

Analysis of Reaeration Equations Using Mean Multiplicative Error, Douglas B. Moog and Gerhard H. Jirka, EE Feb. 98, p104-110.

Recirculation

Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Recovery planning

Pyrolysis-Based Material Recovery from Molding Resin for Electronic Parts, Masatoshi Iji and Yuji Ikuta, EE Sept. 98, p821-828.

Recycling

Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Mixed Policies for Recovery and Disposal of Multiple-Type Consumer Products, H. R. Krikke, A. van Harten and P. C. Schuur, EE Apr. 98, p368-379.

Regional planning

Mixed-Integer Programming Approach for Designing Land Application Systems at a Regional Scale, David M. Crohn and Arthur C. Thomas, EE Feb. 98, p170-177.

Regression models

Use of Regression Models for Analyzing Highway Stormwater Loads, Lyn B. Irish, Jr., Michael E. Barrett, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Oct. 98, p987-993.

Regulations

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Rehabilitation

Returning Impaired Marine Outfall Diffusers to Full Service, Robert A. Grace, EE Mar. 97, p297-303.

Remedial action

Bench-Scale Investigation on Vibrorecovery of NAPL Ganglia from Sands, Lakshmni N. Reddi, John Nichols and George P. Korfiatis, EE Sept. 98, p897-901.

Chlorinated Ethene Reduction by Cast Iron: Sorption and Mass Transfer, David R. Burris, Richelle M. Allen-King, Valipuram S. Manoranjan, Timothy J. Campbell, Gregory A. Loraine and Baolin Deng, EE Oct. 98, p1012-1019.

Classification of Flotation Processes in Wastewater Decontamination, Nicholai N. Voronin and Igor A. Dibrov, EE May 98, p469-472.

Comparative Kinetics of Bacterial Reduction of Chromium, Eric A. Schmieman, David R. Yonge, Mahesh A. Rege, James N. Petersen, Charles E. Turick, Donald L. Johnstone and William A. Apel, EE May 98, p449-455.

Comparison of Autotrophic and Mixotrophic Biofilters for H_2S Removal, Ying-Chien Chung, Chihpin Huang, Jill Ruhsing Pan and Ching-Ping Tseng, EE Apr. 98, p362-367.

Decontamination of U-Rich Waters by Granular Iron, Laurent Charlet, E. Liger and Gerasimo, EE Jan. 98, p25-30.

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Design Model for Selective Catalytic Reduction Process: Solution of Convective Diffusion and NO_x Reaction, Hsunling Bai and Jong-Wen Chwu, EE Dec. 98, p1220-1227.

Discrete-Level Ground Water Monitoring System for Containment and Remedial Performance Assessment Objectives, Robert W. Puls and Cynthia J. Paul, EE June 98, p549-553.

Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.

Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.

Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.

Ex-Situ Remediation of a Metal-Contaminated Superfund Soil Using Selective Extractants, Mark C. Steel and John Pichtel, EE July 98, p639-645.

Fluidized Bed for Removing Iron and Acidity from Acid Mine Drainage, Harry R. Diz and John T. Novak, P.E., EE Aug. 98, p701-708.

Iron Oxide Surface Catalyzed Oxidation of Quinoline by Hydrogen Peroxide, Richard L. Valentine and H. C. Ann Wang, EE Jan. 98, p31-38.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

Nitrate Removal from Drinking Water—Review, Anoop Kapoor and T. Viraraghavan, EE Apr. 97, p371-380.

Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.

Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.

Reactor Models for Horseradish Peroxidase–Catalyzed Aromatic Removal, Ian D. Buchanan, James A. Nicell and Monika Wagner, EE Sept. 98, p794-802.

Stochastic Risk Assessment of Sites Contaminated by Hazardous Wastes, Bill Batchelor, Juan Valdés and Vishwanathan Araganth, EE Apr. 98, p380-388.

Surface Complexation Modeling of Metal Removal by Recycled Iron Sorbent, Edward H. Smith, EE Oct. 98, p913-920.

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Washing of Various Lead Compounds from a Contaminated Soil Column, Allen P. Davis and Bhaumik V. Hotha, EE Nov. 98, p1066-1075.

Water-to-Air Mass Transfer of VOCs: Laboratory-Scale Air Sparging System, Keh-Ping Chao, Say Kee Ong and Angelos Protopapas, EE Nov. 98, p1054-1060.

Remediation

Editor's Note: Papers of Interest, Byung R. Kim, EE Feb. 98, p81.

Residence time

Derivation of Mean Cell Residence Time Formula, Nicolas G. Adrien, P.E., EE May 98, p473-474.

Effect of Recycle and Axial Mixing on Microbial Selection in Activated Sludge, Benjamin S. Magbanua, Jr. and Alan R. Bowers, EE Oct. 98, p970-978.

Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Retention

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Retention time

Derivation of Mean Cell Residence Time Formula, Nicolas G. Adrien, P.E., EE May 98, p473-474.

Riparian land
Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.
Stream Temperature Simulation of Forested Riparian Areas: II. Model Application, Y. David Chen, Steven C. McCutcheon, Douglas J. Norton and Wade L. Nutter, EE Apr. 98, p316-328.

Risk
Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Risk analysis
Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.
Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.
Predicting Chlorine Residuals and Formation of TTHMs in Drinking Water, Robert M. Clark and Mano Sivaganesan, EE Dec. 98, p1203-1210.
Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.
Stochastic Risk Assessment of Sites Contaminated by Hazardous Wastes, Bill Batchelor, Juan Valdés and Vishwanathan Araganth, EE Apr. 98, p380-388.

Risks
Comparative Risk Dilemma in Drinking Water Disinfection, Lewis A. Rossman, EE Sept. 98, p781.
Editor's Note: Papers in this Issue, EE May 98, p396.

Rivers
Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.
Fate and Transport of Metam Spill in Sacramento River, P. F. Wang, T. Mill, J. L. Martin and T. A. Wool, EE July 97, p704-712.
Tidal and Transport Modeling by Using Turbulence $\bar{k}$ - $\bar{w}$ Model, Li-Ren Yu and A. M. Righetto, EE Mar. 98, p212-221.

Runoff
ANSWERS-2000: Runoff and Sediment Transport Model, Faycal Bouraoui and Theo A. Dillaha, EE June 96, p493-502.
Characterization and Pollutant Loading Estimation for Urban and Rural Highway Runoff, Jy S. Wu, Craig J. Allan, William L. Saunders and Jack B. Evett, EE July 98, p584-592.
Characterization of Highway Runoff in Austin, Texas, Area, Michael E. Barrett, Lyn B. Irish, Jr., Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Feb. 98, p131-137.
Effects of Infiltration on Agricultural Runoff Contamination, A. Parr, S. Zou and B. McEnroe, EE Sept. 98, p863-868.
Models of Storm Sewers Discharge: 1. Description, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p593-599.
Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.
Use of Regression Models for Analyzing Highway Stormwater Loads, Lyn B. Irish, Jr., Michael E. Barrett, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Oct. 98, p987-993.

Sampling
Discrete-Level Ground Water Monitoring System for Containment and Remedial Performance Assessment Objectives, Robert W. Puls and Cynthia J. Paul, EE June 98, p549-553.
Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.
Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.
Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Sand
Bench-Scale Investigation on Vibrorecovery of NAPL Ganglia from Sands, Lakshmni N. Reddi, John Nichols and George P. Korfiatis, EE Sept. 98, p897-901.

Scale effect
Linking Hydrodynamic and Water Quality Models with Different Scales, Joseph F. Atkinson, Sunil K. Gupta, Joseph V. DePinto and Ralph R. Rumer, EE May 98, p399-408.

Scale models
Physical Modeling of Hydrodynamic Separators Operating with Underflow, R. A. Fenner and J. N. Tyack, EE Sept. 98, p881-886.

Sediment
Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.
Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.
Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Sediment deposits
Particle Size Distribution and Metal Content in Street Sediments, Maria Viklander, EE Aug. 98, p761-766.

Sediment transport
ANSWERS-2000: Runoff and Sediment Transport Model, Faycal Bouraoui and Theo A. Dillaha, EE June 96, p493-502.

Sedimentation
Initial Settling Rate/Concentration Relationship in Zone Settling, M. A. Islam and R. D. Karamisheva, EE Jan. 98, p39-42.

Sediments
Particle Size Distribution and Metal Content in Street Sediments, Maria Viklander, EE Aug. 98, p761-766.

Sensitivity analysis
Model of Leaching Behavior from Fly Ash Landfills with Different Age Refuses, Chiajim Huang, Chungsying Lu and Jauhwan Tzeng, EE Aug. 98, p767-775.
Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

Sensors
Self-Referencing Fiber-Optic Fluorescence Sensor for Turbid Samples, Terence L. Tipton and Brian S. Vogt, EE June 98, p545-548.

Separation techniques
Cr-Polluted Soil Studied by High Gradient Magnetic Separation and Electron Probe, R. A. Rikers, J. H. L. Voncken and W. L. Dalmijn, EE Dec. 98, p1159-1164.
Surfactants for Separation Processes: Enhanced Ultrafiltration, Z. Sadaoui, C. Azoug, G. Charbit and F. Charbit, EE Aug. 98, p695-700.

Separators
Physical Modeling of Hydrodynamic Separators Operating with Underflow, R. A. Fenner and J. N. Tyack, EE Sept. 98, p881-886.

Settlement analysis
Initial Settling Rate/Concentration Relationship in Zone Settling, M. A. Islam and R. D. Karamisheva, EE Jan. 98, p39-42.
Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Sewage sludge
Mixed-Integer Programming Approach for Designing Land Application Systems at a Regional Scale, David M. Crohn and Arthur C. Thomas, EE Feb. 98, p170-177.

Sewage treatment
Classification of Flotation Processes in Wastewater Decontamination, Nicholai N. Voronin and Igor A. Dibrov, EE May 98, p469-472.
Mixed-Integer Programming Approach for Designing Land Application Systems at a Regional Scale, David M. Crohn and Arthur C. Thomas, EE Feb. 98, p170-177.

Shallow water
Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Shear
NOM Accumulation at NF Membrane Surface: Impact of Chemistry and Shear, Anne Braghetta, Francis A. DiGiano and William P. Ball, EE Nov. 98, p1087-1098.

Silica
Pyrolysis-Based Material Recovery from Molding Resin for Electronic Parts, Masatoshi Iji and Yuji Ikuta, EE Sept. 98, p821-828.

Silty loams
Influence of Water Content on SVE in a Silt Loam Soil, B. Harper, W. H. Stiver and R. G. Zytner, EE Nov. 98, p1047-1053.

Site evaluation
Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.
Stochastic Risk Assessment of Sites Contaminated by Hazardous Wastes, Bill Batchelor, Juan Valdés and Vishwanathan Araganth, EE Apr. 98, p380-388.

Site investigation
Site Characterization and Containment Assessment with Dissolved Gases, William E. Sanford and D. Kip Solomon, EE June 98, p572-574.

Slag
Treatment of Styrene-Contaminated Air Stream in Biotrickling Filter Packed with Slags, Ming-Shean Chou and Chih-Chien Hsiao, EE Sept. 98, p844-850.

Sludge
Reductive Dechlorination of Chlorophenols in Methanogenic Cultures, Yi-Tin Wang, Shanmuganathan Muthukrishnan and Zhenming Wang, EE Mar. 98, p231-238.

Sludge treatment
Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiunn-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Slurry walls
Boundary Conditions for Modeling Transport in Vertical Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Nov. 98, p1135-1139.
Nonequilibrium Sorption in Soil/Bentonite Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Apr. 98, p329-335.

Soil pollution
Cr-Polluted Soil Studied by High Gradient Magnetic Separation and Electron Probe, R. A. Rikers, J. H. L. Voncken and W. L. Dalmijn, EE Dec. 98, p1159-1164.
Effects of TNT and Its Metabolites on Anaerobic TNT Degradation, Deborah J. Roberts, Suhasini Pendharkar and Farrukh Ahmad, EE July 98, p660-667.
Iron Oxide Surface Catalyzed Oxidation of Quinoline by Hydrogen Peroxide, Richard L. Valentine and H. C. Ann Wang, EE Jan. 98, p31-38.
Metal Ion Leaching From Contaminated Soils: Model Calibration and Application, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Dec. 98, p1150-1158.
Metal Ion Leaching from Contaminated Soils: Model Development, C. Ganguly, M. R. Matsumoto, A. J. Rabideau and J. E. Van Benschoten, EE Mar. 98, p278-287.
Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.
Washing of Various Lead Compounds from a Contaminated Soil Column, Allen P. Davis and Bhaumik V. Hotha, EE Nov. 98, p1066-1075.

Soil treatment
Bench-Scale Investigation on Vibrorecovery of NAPL Ganglia from Sands, Lakshmni N. Reddi, John Nichols and George P. Korfiatis, EE Sept. 98, p897-901.
Cr-Polluted Soil Studied by High Gradient Magnetic Separation and Electron Probe, R. A. Rikers, J. H. L. Voncken and W. L. Dalmijn, EE Dec. 98, p1159-1164.
Cr(VI) Reduction by *Bacillus Polymaxa* Isolated from Contaminated Soils, Ligy Philip, Leela Iyengar and C. Venkobachar, EE Dec. 98, p1165-1170.
Gas Permeability and Diffusivity in Undisturbed Soil: SVE Implications, Tjalfe G. Poulsen, Per Moldrup, Per Schjønning, Joel W. Massmann and Jens Aa. Hansen, EE Oct. 98, p979-986.

Soil water
VOC Vapor Sorption in Soil: Soil Type Dependent Model and Implications for Vapor Extraction, Tjalfe G. Poulsen, Per Moldrup, T. Yamaguchi, Joel W. Massmann and Jens A. Hansen, EE Feb. 98, p146-155.

Soils
Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

Steam Stripping Organics from "Fluidized" Soils (Versus Confined Soils), Arthur E. Lord, Jr., EE Apr. 98, p390-394.

Soils, saturated

System Effects on Benzene Removal from Saturated Soils and Ground Water Using Air Sparging, Krishna R. Reddy and Jeffrey A. Adams, EE Mar. 98, p288-299.

Soils, unsaturated

Estimation of Biokinetic Parameters for Unsaturated Soils, Brent E. Sleep and Lynda J. Mulcahy, EE Oct. 98, p959-969.

Solar radiation

Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.

Stream Temperature Simulation of Forested Riparian Areas: II. Model Application, Y. David Chen, Steven C. McCutcheon, Douglas J. Norton and Wade L. Nutter, EE Apr. 98, p316-328.

Solid waste management

Fly Ash Binders in the Stabilization of FGD Wastes, R. Ibáñez, A. Andrés, J. A. Irabien and I. Ortiz, EE Jan. 98, p43-50.

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Solid wastes

Decomposition of Specific Materials Buried within Sanitary Landfills, Timothy D. Baldwin, Jeffrey Stinson and Robert K. Ham, EE Dec. 98, p1193-1202.

Derivation of Mean Cell Residence Time Formula, Nicolas G. Adrien, P.E., EE May 98, p473-474.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Editor's Note: Papers of Interest, Byung R. Kim, EE Feb. 98, p81.

Effects of Moisture on Pyrolysis of Polypropylene, Chao-Hsiung Wu, Ching-Yuan Chang and Jyh-Ping Lin, EE Sept. 98, p892-896.

High-Solids Anaerobic Digestion of Mixed Municipal and Industrial Waste, Jan A. Oleszkiewicz and Hector M. Poggi-Varaldo, EE Nov. 97, p1087-1092.

Hydrogen Sulfide Production During Decomposition of Landfill Inputs, Robert J. Fairweather and Morton A. Barlaz, P.E., EE Apr. 98, p353-361.

Time Series Analysis of Municipal Solid Waste Generation Rates, Anastasia Katsamaki, Sander Willems and Evan Diamadopoulos, EE Feb. 98, p178-183.

Solidification

Fly Ash Binders in the Stabilization of FGD Wastes, R. Ibáñez, A. Andrés, J. A. Irabien and I. Ortiz, EE Jan. 98, p43-50.

Solids

Dynamic Model for Zone Settling and Compression in Gravity Thickeners, Yunsheng Zheng and David M. Bagley, EE Oct. 98, p953-958.

Solids flow

Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

Solutes

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Self-Referencing Fiber-Optic Fluorescence Sensor for Turbid Samples, Terence L. Tipton and Brian S. Vogt, EE June 98, p545-548.

Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Solvents

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Sorption

Chlorinated Ethene Reduction by Cast Iron: Sorption and Mass Transfer, David R. Burris, Richelle M. Allen-King, Valipuram S. Manoranjan, Timothy J. Campbell, Gregory A. Loraine and Baolin Deng, EE Oct. 98, p1012-1019.

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Nonequilibrium Sorption in Soil/Bentonite Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Apr. 98, p329-335.

VOC Vapor Sorption in Soil; Soil Type Dependent Model and Implications for Vapor Extraction, Tjalfe G. Poulsen, Per Moldrup, T. Yamaguchi, Joel W. Massmann and Jens A. Hansen, EE Feb. 98, p146-155.

Spatial data

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilyrn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Spheres

Solute Uptake in Aquatic Sediments Due to Current-Obstacle Interactions, Paul A. Hutchinson and Ian T. Webster, EE May 98, p419-426.

Spreadsheets

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Stability

Defining Biosolids Stability, Michael S. Switzenbaum, Lynne H. Moss, Eliot Epstein, Albert B. Pincince and John F. Donovan, EE Dec. 97, p1178-1184.

Stability analysis

Defining Biosolids Stability, Michael S. Switzenbaum, Lynne H. Moss, Eliot Epstein, Albert B. Pincince and John F. Donovan, EE Dec. 97, p1178-1184.

Stabilization

Fly Ash Binders in the Stabilization of FGD Wastes, R. Ibáñez, A. Andrés, J. A. Irabien and I. Ortiz, EE Jan. 98, p43-50.

Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

Standardization

Future Direction of Environmental Engineering in Manufacturing Industries, Irving T. Salmeen and Byung R. Kim, EE July 98, p580.

Standards

The Ethics and Science of Environmental Regulation, P. Aarne Vesilind and Lauren Bartlett, EE Aug. 98, p675-676.

Statistical analysis

Analysis of Reaeration Equations Using Mean Multiplicative Error, Douglas B. Moog and Gerhard H. Jirka, EE Feb. 98, p104-110.

Time Series Analysis of Municipal Solid Waste Generation Rates, Anastasia Katsamaki, Sander Willems and Evan Diamadopoulos, EE Feb. 98, p178-183.

Steam stripping

Steam Stripping Organics from "Fluidized" Soils (Versus Confined Soils), Arthur E. Lord, Jr., EE Apr. 98, p390-394.

Stochastic models

Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Stochastic Risk Assessment of Sites Contaminated by Hazardous Wastes, Bill Batchelor, Juan Valdés and Vishwanathan Araganth, EE Apr. 98, p380-388.

Time Series Analysis of Municipal Solid Waste Generation Rates, Anastasia Katsamaki, Sander Willems and Evan Diamadopoulos, EE Feb. 98, p178-183.

Storm runoff

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Evaluation of Water Quality Factors in Storm Runoff from Paved Areas, Ana B. Deletic and C. T. Maksimovic, EE Sept. 98, p869-879.

Performance of Vegetative Controls for Treating Highway Runoff, Michael E. Barrett, Patrick M. Walsh, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Nov. 98, p1121-1128.

Storm sewers

Models of Storm Sewers Discharge: 1. Description, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p593-599.

Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.

Stormwater

Characterization of Highway Runoff in Austin, Texas, Area, Michael E. Barrett, Lyn B. Irish, Jr., Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Feb. 98, p131-137.

Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Sirualure and Larry E. Foppe, EE Jan. 98, p11-15.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Models of Storm Sewers Discharge: 1. Description, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p593-599.

Models of Storm Sewers Discharge: 2. Calibration and Verification, E. Osuch-Pajdzińska and M. Zawilski, EE July 98, p600-611.

Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

Stormwater management

Characterization and Pollutant Loading Estimation for Urban and Rural Highway Runoff, Jy S. Wu, Craig J. Allan, William L. Saunders and Jack B. Evett, EE July 98, p584-592.

Strain rate

Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.

Streamflow

Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.

Streams

Apparatus for Streaming Potential Measurements on Granular Filter Media, S. E. Truesdail, G. B. Westermann-Clark and D. O. Shah, EE Dec. 98, p1228-1232.

Chemical Reactions and Gas Transfer in Natural Waters, Donald J. O'Connor, EE Feb. 98, p85-93.

Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.

Stream Temperature Simulation of Forested Riparian Areas: II. Model Application, Y. David Chen, Steven C. McCutcheon, Douglas J. Norton and Wade L. Nutter, EE Apr. 98, p316-328.

Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Streets

Particle Size Distribution and Metal Content in Street Sediments, Maria Viklander, EE Aug. 98, p761-766.

Submerged discharge

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Rapid Sizing and Performance Evaluation of Submarine Outfalls with Line Diffusers, Maria A. Economopoulou and Alexander P. Economopoulos, EE Feb. 98, p138-145.

Subsidence

Appraisal of Some Evolving Environmental Issues Relevant to Underground Space Development, Hilary I. Inyang, EE Mar. 98, p197.

Substrates

Systematic Approach for Modeling Tetrachloroethene Biodegradation, David M. Bagley, EE Nov. 98, p1076-1086.

Subsurface flow

Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Subsurface investigations

Determination of Heat Production Zones at Open-Cast Mine Dump, M. Schreck, M. Nishigaki, H.-R. Gläser, G. Christoph, S. Großwig, E. Hurtig, M. Kasch and K. Kühn, EE July 98, p646-651.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Editor's Note: Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.

Sulfides

Mercury Disposal Via Sulfur Reactions, Lawrence N. Oji, EE Oct. 98, p945-952.

Sulfur

Mercury Disposal Via Sulfur Reactions, Lawrence N. Oji, EE Oct. 98, p945-952.

Surface waters

Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Editor's Note: Papers of Interest, Byung R. Kim, EE Feb. 98, p81.

The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

Surface-active agents

Determination of Oxygen Diffusion Coefficient in Wastewaters, Sheng H. Lin, Tze M. Lin and Horng G. Leu, EE Mar. 98, p265-271.

Effect of Sodium Xylenesulfonate on Zinc Removal from Wastewater, Robert B. Saari, John S. Stansbury and Frederic C. Laquer, EE Oct. 98, p939-944.

Surfactants for Separation Processes: Enhanced Ultrafiltration, Z. Sadaoui, C. Azoug, G. Charbit and F. Charbit, EE Aug. 98, p695-700.

Suspended sediments

Characterization and Pollutant Loading Estimation for Urban and Rural Highway Runoff, Jy S. Wu, Craig J. Allan, William L. Saunders and Jack B. Evett, EE July 98, p584-592.

Effect of In-Lake Water Quality on Pollutant Removal in Two Ponds, R. C. Borden, J. L. Dorn, J. B. Stillman and S. K. Liehr, EE Aug. 98, p737-743.

Initial Settling Rate/Concentration Relationship in Zone Settling, M. A. Islam and R. D. Karamisheva, EE Jan. 98, p39-42.

Self-Referencing Fiber-Optic Fluorescence Sensor for Turbid Samples, Terence L. Tipton and Brian S. Vogt, EE June 98, p545-548.

Suspended solids

Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

Swales

Characterization of Highway Runoff in Austin, Texas, Area, Michael E. Barrett, Lyn B. Irish, Jr., Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Feb. 98, p131-137.

Performance of Vegetative Controls for Treating Highway Runoff, Michael E. Barrett, Patrick M. Walsh, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Nov. 98, p1121-1128.

Tailings

Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Temperature

Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.

Stream Temperature Simulation of Forested Riparian Areas: II. Model Application, Y. David Chen, Steven C. McCutcheon, Douglas J. Norton and Wade L. Nutter, EE Apr. 98, p316-328.

Temperature effects

Determination of Heat Production Zones at Open-Cast Mine Dump, M. Schreck, M. Nishigaki, H.-R. Gläser, G. Christoph, S. Großwig, E. Hurtig, M. Kasch and K. Kühn, EE July 98, p646-651.

Dynamic Adsorption of Heavy Metals under Incineration Temperatures, Jyh-Cherng Chen, Ming-Yen Wey, Yu-Fen Liu and Bo-Chin Chinag, EE Aug. 98, p776-779.

Properties of Red Mud Tailings Produced under Varying Process Conditions, Loretta Y. Li, EE Mar. 98, p254-264.

Temperature Responses of Biological Phosphorus-Removing Activated Sludge, Pradeep Kumar, Indu Mehrotra and T. Viraraghavan, EE Feb. 98, p192-196.

Tertiary treatment

Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.

Tests

Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Textiles

Evaluation of Membrane Filtration and Ozonation Processes for Treatment of Reaction Dye Wastewater, Jiangning Wu, Mark A. Eiteman and S. Edward Law, EE Mar. 98, p272-277.

Thawing

Alum Residual Floc Interactions with an Advancing Ice/Water Interface, Philip J. Parker, Anthony G. Collins and John P. Dempsey, EE Mar. 98, p249-253.

Tidal hydraulics

Tidal and Transport Modeling by Using Turbulence $\tilde{k}$ - $\tilde{w}$ Model, Li-Ren Yu and A. M. Righetto, EE Mar. 98, p212-221.

Time factors

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Time series analysis

Time Series Analysis of Municipal Solid Waste Generation Rates, Anastasia Katsamaki, Sander Willems and Evan Diamadopoulos, EE Feb. 98, p178-183.

Toxic waste disposal

Appraisal of Some Evolving Environmental Issues Relevant to Underground Space Development, Hilary I. Inyang, EE Mar. 98, p197.

Toxicity

Toxicity of Acrylic Acid to Acetate-Enriched *Methanosarcina* Cultures, Göksel N. Demirer and Richard E. Speece, EE Apr. 98, p345-352.

Tracers

Editor's Note Special Issue on Monitoring and Characterization Techniques for Contaminants in the Subsurfaces, Byung R. Kim, EE June 98, p486-487.

Media-Induced Hydraulic Behavior and Performance of Upflow Biofilters, Joo-Hwa Tay and Kuan-Yeow Show, EE Aug. 98, p720-729.

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Numerical Simulation of Tracer Tests in Heterogeneous Aquifer, C. Zheng and J. J. Jiao, EE June 98, p510-516.

Partitioning Tracers for Measuring Residual NAPL: Field-Scale Test Results, Michael D. Annable, P. S. C. Rao, Kirk Hatfield, Wendy D. Graham, A. L. Wood and C. G. Enfield, EE June 98, p498-503.

Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Site Characterization and Containment Assessment with Dissolved Gases, William E. Sanford and D. Kip Solomon, EE June 98, p572-574.

Sulfur Hexafluoride Gas Tracer Studies in Streams, David E. Hibbs, Kenneth L. Parkhill and John S. Gulliver, EE Aug. 98, p752-760.

Training

Directions for Environmental Engineering, David A. Dzombak, Francis C. McMichael and Walter J. Blenko, EE Nov. 98, p1036-1037.

Transport phenomena

Eutrophication Model for a Coastal Bay in Hong Kong, K. W. Chau and Haisheng Jin, EE July 98, p628-638.

Evaluating Health Risks From Ground-Water Contaminants, Warren T. Piver, Lee A. Duval and Jill A. Schreifer, EE May 98, p475-478.

Fate and Transport of Metam Spill in Sacramento River, P. F. Wang, T. Mill, J. L. Martin and T. A. Wool, EE July 97, p704-712.

Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.

Mass Loss from LNAPL Pools under Fluctuating Water Table Conditions, Lakshmi N. Reddi, Wei Han and M. K. Banks, EE Dec. 98, p1171-1177.

Modeling Retention of Sorbing Solutes in Streams Based on Tracer Experiment Using ^{51}Cr, Anders Wörman, Jonas Forsman and Håkan Johansson, EE Feb. 98, p122-130.

NAPL Pool Dissolution in Stratified and Anisotropic Porous Formations, Kenneth Y. Lee and Constantinos V. Chrysikopoulos, EE Sept. 98, p851-862.

Nonequilibrium Sorption in Soil/Bentonite Barriers, Alan Rabideau and Ashutosh Khandelwal, EE Apr. 98, p329-335.

Numerical Simulation of Tracer Tests in Heterogeneous Aquifer, C. Zheng and J. J. Jiao, EE June 98, p510-516.

Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

Three-Dimensional Model for Subsurface Transport and Biodegradation, Dan W. Waddill and Mark A. Widdowson, EE Apr. 98, p336-344.

Tidal and Transport Modeling by Using Turbulence $\tilde{k}$ - $\tilde{w}$ Model, Li-Ren Yu and A. M. Righetto, EE Mar. 98, p212-221.

Transport of Dry Aerosols in Turbulent Jets, R. Balachandar, P.E., S. R. Mulpuru and M. H. Ungurian, EE Oct. 98, p994-1002.

Transportation

Appraisal of Some Evolving Environmental Issues Relevant to Underground Space Development, Hilary I. Inyang, EE Mar. 98, p197.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Trenches

BEM Solution for Design of Trenches in Multilayered Landfills, V. Popov, H. Power and J. M. Baldasano, EE Jan. 98, p59-66.

Trichloroethylene

Decontamination of U-Rich Waters by Granular Iron, Laurent Charlet, E. Liger and Gerasimo, EE Jan. 98, p25-30.

Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

TCE and Flow Monitoring Methods Using an Existing Water Supply Well, Gary R. Foote, Nancy T. Bice, Lisa D. Rowles and John D. Gallinatti, EE June 98, p564-571.

VOC Vapor Sorption in Soil; Soil Type Dependent Model and Implications for Vapor Extraction, Tjalfe G. Poulsen, Per Moldrup, T. Yamaguchi, Joel W. Massmann and Jens A. Hansen, EE Feb. 98, p146-155.

Trickling filters

Treatment of Styrene-Contaminated Air Stream in Biotrickling Filter Packed with Slags, Ming-Shean Chou and Chih-Chien Hsiao, EE Sept. 98, p844-850.

Trihalomethanes

Chlorine Demand and Trihalomethane Formation Kinetics: a Second-Order Model, Robert M. Clark, EE Jan. 98, p16-24.

Turbulence

Tidal and Transport Modeling by Using Turbulence $\tilde{k}$ - $\tilde{w}$ Model, Li-Ren Yu and A. M. Righetto, EE Mar. 98, p212-221.

Turbulent flow

Dilution of Multiple Nonbuoyant Circular Jets in Crossflows, Ahmed K. Moawad and N. Rajaratnam, EE Jan. 98, p51-58.

Two-dimensional analysis

Experimental and Numerical Evaluation of LNAPL Lens and Polluted Capillary Fringe Thickness, Lizette R. Chevalier, EE Feb. 98, p156-161.

Two-dimensional models

Eutrophication Model for a Coastal Bay in Hong Kong, K. W. Chau and Haisheng Jin, EE July 98, p628-638.

Ultraviolet radiation

Photochemical Destruction of Cyanide in Landfill Leachate, B. R. Kim, D. H. Podsiadlik, E. M. Kalis, J. L. Hartlund and W. A. Gaines, EE Nov. 98, p1108-1113.

Uncertainty analysis

Quantitative Evaluation of Uncertainty in Site-Specific Risk Assessment, Paula A. Labieniec, David A. Dzombak and Robert L. Siegrist, EE Mar. 97, p234-243.

Variance of Load Estimates Derived by Piecewise Linear Interpolation, George Shih, Xiaosong Wang, H. J. Grimshaw and Joel VanArman, EE Nov. 98, p1114-1120.

Undergraduate study

Editorial, Suzanne E. Powers, EE May 98, p395.

Environmental Engineering Forum (Closure of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, vol. 122, No. 9, pp. 779-784), Steven I. Safferman, Vivek P. Utgikar and Sarwan S. Sandhu, EE Mar. 98, p201.

Environmental Engineering Forum (Discussion of Undergraduate Environmental Engineering Education Forum Paper, Sept. 1996, Vol. 122, No. 9, pp. 779-784), Navnit Padival, P.E., EE Mar. 98, p199-201.

Environmental Engineering—What Does It Take to Start? Robert G. Arnold, EE Oct. 98, p907-908.

Why Environmental Engineering Should Be a Separate Major: Forum Paper Discussion, Nicholas L. Clesceri, P.E., EE June 98, p489.

Underground storage

Appraisal of Some Evolving Environmental Issues Relevant to Underground Space Development, Hilary I. Inyang, EE Mar. 98, p197.

Underground structures

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Universities

Editorial, Suzanne E. Powers, EE May 98, p395.

Environmental Engineering—What Does It Take to Start? Robert G. Arnold, EE Oct. 98, p907-908.

Unsaturated flow

Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.

Uranium

Decontamination of U-Rich Waters by Granular Iron, Laurent Charlet, E. Liger and Gerasimo, EE Jan. 98, p25-30.

Urban roads

Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

Urban runoff

Physical Characteristics of Urban Roadway Solids Transported During Rain, John J. Sansalone, Joseph M. Koran, Joseph A. Smithson and Steven G. Buchberger, EE May 98, p427-440.

Vadose zone

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Vapor pressure

New Isotherm Equation for Water Vapor Adsorption onto Microporous Activated Carbon, Shaoying Qi, K. James Hay and Mark J. Rood, EE Nov. 98, p1130-1134.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Variability

Representative Ground Water Monitoring in Fractured Porous Systems, Gerilynn R. Moline, Madeline E. Schreiber and Jean M. Bahr, EE June 98, p530-538.

Variance analysis

Variance of Load Estimates Derived by Piecewise Linear Interpolation, George Shih, Xiaosong Wang, H. J. Grimshaw and Joel VanArman, EE Nov. 98, p1114-1120.

Vegetation

Performance of Vegetative Controls for Treating Highway Runoff, Michael E. Barrett, Patrick M. Walsh, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Nov. 98, p1121-1128.

Plant-Enhanced Subsurface Bioremediation of Nonvolatile Hydrocarbons, Yoon-Young Chang and M. Yavuz Corapcioglu, EE Feb. 98, p162-169.

Velocity

Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.

Transport of Dry Aerosols in Turbulent Jets, R. Balachandar, P.E., S. R. Mulpuru and M. H. Ungurian, EE Oct. 98, p994-1002.

Velocity gradient

Influence of Strain-Rate on Coagulation Kinetics, Timothy A. Kramer and Mark M. Clark, EE May 97, p444-452.

Ventilation

BEM Solution for Design of Trenches in Multilayered Landfills, V. Popov, H. Power and J. M. Baldasano, EE Jan. 98, p59-66.

Vibration

Bench-Scale Investigation on Vibrorecovery of NAPL Ganglia from Sands, Lakshmni N. Reddi, John Nichols and George P. Korfiatis, EE Sept. 98, p897-901.

Viruses

Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.

Volatile organic chemicals

Analytical Inverse Model for Multicomponent Soil Vapor Extraction, Clifford K. Ho, EE June 98, p504-509.

Considerations for Monitoring Permeable Ground-Water Treatment Walls, Scott D. Warner, Carol L. Yamane, John D. Gallinatti and Deborah A. Hankins, EE June 98, p524-529.

Flux Chamber Measurements of Mass Transfer Rates, Shafik E. Sadek, Terry C. Lee, J. Donald Smith and Rolf Gebel, EE Feb. 98, p111-121.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

Parameter-Induced Uncertainty in Modeling Vadose Zone Transport of VOCs, L. Donald Duke, P.E., Yue Rong and Thomas C. Harmon, EE May 98, p441-448.

TCE and Flow Monitoring Methods Using an Existing Water Supply Well, Gary R. Foote, Nancy T. Bice, Lisa D. Rowles and John D. Gallinatti, EE June 98, p564-571.

VOC Vapor Sorption in Soil; Soil Type Dependent Model and Implications for Vapor Extraction, Tjalfe G. Poulsen, Per Moldrup, T. Yamaguchi, Joel W. Massmann and Jens A. Hansen, EE Feb. 98, p146-155.

Water-to-Air Mass Transfer of VOCs: Laboratory-Scale Air Sparging System, Keh-Ping Chao, Say Kee Ong and Angelos Protopapas, EE Nov. 98, p1054-1060.

Volatilization

Flux Chamber Measurements of Mass Transfer Rates, Shafik E. Sadek, Terry C. Lee, J. Donald Smith and Rolf Gebel, EE Feb. 98, p111-121.

Natural Discharge of Volatile Organic Compounds from Contaminated Aquifer to Surface Waters, Heekyung Kim and Harold F. Hemond, EE Aug. 98, p744-751.

VOC Vapor Sorption in Soil; Soil Type Dependent Model and Implications for Vapor Extraction, Tjalfe G. Poulsen, Per Moldrup, T. Yamaguchi, Joel W. Massmann and Jens A. Hansen, EE Feb. 98, p146-155.

Walls

Considerations for Monitoring Permeable Ground-Water Treatment Walls, Scott D. Warner, Carol L. Yamane, John D. Gallinatti and Deborah A. Hankins, EE June 98, p524-529.

Washing

Washing of Various Lead Compounds from a Contaminated Soil Column, Allen P. Davis and Bhaumik V. Hotha, EE Nov. 98, p1066-1075.

Waste disposal

Mercury Disposal Via Sulfur Reactions, Lawrence N. Oji, EE Oct. 98, p945-952.

Waste management

Directions for Environmental Engineering, David A. Dzombak, Francis C. McMichael and Walter J. Blenko, EE Nov. 98, p1036-1037.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Nov. 98, p1035.

Mixed Policies for Recovery and Disposal of Multiple-Type Consumer Products, H. R. Krikke, A. van Harten and P. C. Schuur, EE Apr. 98, p368-379.

Monitoring Subsurface Barrier Integrity Using Perfluorocarbon Tracers, T. M. Sullivan, J. Heiser, A. Gard and G. Senum, EE June 98, p490-497.

Waste recycling

Editor's Note: Papers in This Issue, Byung R. Kim, EE Sept. 98, p782.

Hydraulic Conductivity and Leachate Characteristics of Stabilized Fly Ash, Ambarish Ghosh and Chillara Subbarao, EE Sept. 98, p812-820.

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Mixed Policies for Recovery and Disposal of Multiple-Type Consumer Products, H. R. Krikke, A. van Harten and P. C. Schuur, EE Apr. 98, p368-379.

Waste treatment

Considerations for Monitoring Permeable Ground-Water Treatment Walls, Scott D. Warner, Carol L. Yamane, John D. Gallinatti and Deborah A. Hankins, EE June 98, p524-529.

Offshore Passive Soil Vapor Survey at a Contaminated Coastal Site, Michael Anderson and Gerald Church, EE June 98, p555-563.

Waste utilization

Continuous-Flow Wood Chip Reactor for Biodegradation of 2,4-DCP, Kyu-Jin Yum and J.Jeffrey Peirce, EE Feb. 98, p184-190.

Materials Balance for Municipal Solid-Waste Management, Douglas A. Haith, EE Jan. 98, p67-75.

Mixed Policies for Recovery and Disposal of Multiple-Type Consumer Products, H. R. Krikke, A. van Harten and P. C. Schuur, EE Apr. 98, p368-379.

Mixed-Integer Programming Approach for Designing Land Application Systems at a Regional Scale, David M. Crohn and Arthur C. Thomas, EE Feb. 98, p170-177.

Pyrolysis-Based Material Recovery from Molding Resin for Electronic Parts, Masatoshi Iji and Yuji Ikuta, EE Sept. 98, p821-828.

Wasteload allocation

Trends in BOD/DO Modeling for Wasteload Allocations, Wu-Seng Lung, EE Oct. 98, p1004-1007.

Wastewater

Classification of Flotation Processes in Wastewater Decontamination, Nicholai N. Voronin and Igor A. Dibrov, EE May 98, p469-472.

Determination of Oxygen Diffusion Coefficient in Wastewaters, Sheng H. Lin, Tze M. Lin and Horng G. Leu, EE Mar. 98, p265-271.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Oct. 98, p909.

Editor's Note. Papers in this Issue, Byung R. Kim, EE Dec. 98, p1149.

Influence of Carbonation on Leaching of Cementitious Wasteforms, Md. Sazzad Bin Shafique, John C. Walton, Neyda Gutierrez, Robert W. Smith and Anthony J. Tarquin, EE May 98, p463-467.

Wastewater disposal

Rapid Sizing and Performance Evaluation of Submarine Outfalls with Line Diffusers, Maria A. Economopoulou and Alexander P. Economopoulos, EE Feb. 98, p138-145.

Wastewater treatment

Anaerobic Treatment of Low-Strength Domestic Wastewater Using an Anaerobic Expanded Bed Reactor, Anthony G. Collins, Thomas L. Theis, Srinivas Kilambi, Lin He and Spyros G. Pavlostathis, EE July 98, p652-659.

Derivation of Mean Cell Residence Time Formula, Nicolas G. Adrien, P.E., EE May 98, p473-474.

Editor's Note: Papers in this Issue, EE Jan. 98, p2.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Sept. 98, p782.

Effect of Sodium Xylenesulfonate on Zinc Removal from Wastewater, Robert B. Saari, John S. Stansbury and Frederic C. Laquer, EE Oct. 98, p939-944.

Environmental Impacts of Nutrient Removal Processes: Case Study, Mark C. M. van Loosdrecht, Takahiro Kuba, Henry M. van Veldhuizen, Frank A. Brandse and Joseph J. Heijnen, EE Jan. 97, p33-40.

Evaluation of Membrane Filtration and Ozonation Processes for Treatment of Reaction Dye Wastewater, Jiangning Wu, Mark A. Eiteman and S. Edward Law, EE Mar. 98, p272-277.

Forum. Aeration Systems—Responsibilities of Manufacturer, Designer, and Owner, William C. Boyle, EE May 98, p397-398.

In Situ Hypochlorous Acid Generation for the Treatment of Tannery Wastewaters, K. Vijayaraghavan, T. K. Ramanujam and N. Balasubramanian, EE Sept. 98, p887-891.

Influence of Hydraulic Loading Rate on UASB Reactor Treating Phenolic Wastewater, Jiun-Jyi Lay and Sheng-Shung Cheng, EE Sept. 98, p829-837.

Inhibition of Nickel Precipitation by Gluconate. I: Kinetic Studies and Spectroscopic Analyses, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p677-684.

Inhibition of Nickel Precipitation by Gluconate. II: Kinetic Modeling, H.-L. Hu, N. P. Nikolaidis and D. Grasso, P.E., EE Aug. 98, p685-689.

Optimal Design for Anaerobic Pretreatment of Municipal Wastewater, Bruce J. Alderman, Thomas L. Theis and Anthony G. Collins, EE Jan. 98, p4-10.

Rapid Sizing and Performance Evaluation of Submarine Outfalls with Line Diffusers, Maria A. Economopoulou and Alexander P. Economopoulos, EE Feb. 98, p138-145.

Surfactants for Separation Processes: Enhanced Ultrafiltration, Z. Sadaoui, C. Azoug, G. Charbit and F. Charbit, EE Aug. 98, p695-700.

Use of Immobilized Bentonite in Removal of Heavy Metals from Wastewater, Anoop Kapoor and T. Viraraghavan, EE Oct. 98, p1020-1024.

Water content

Influence of Water Content on SVE in a Silt Loam Soil, B. Harper, W. H. Stiver and R. G. Zytner, EE Nov. 98, p1047-1053.

Water levels

Monitoring Hydraulic Gradient Using Three-Point Estimator, Stephen E. Silliman and Craig Frost, EE June 98, p517-523.

Water quality

ANSWERS-2000: Runoff and Sediment Transport Model, Faycal Bouraoui and Theo A. Dillaha, EE June 96, p493-502.

Characterization of Highway Runoff in Austin, Texas, Area, Michael E. Barrett, Lyn B. Irish, Jr., Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Feb. 98, p131-137.

Clean Air, Dirty Water? The MTBE Story, Daniel P. Y. Chang and Jerold A. Last, EE Oct. 98, p910-912.

Editorial: Donald J. O'Connor (1922-1997), An Historic Teacher and Scholar of Environmental Engineering, Robert V. Thomann, Dominic M. DiToro and Wu-Seng Lung, EE Feb. 98, p82-84.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Mar. 98, p198.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Apr. 98, p301.

Editor's Note: Papers in this Issue, EE May 98, p396.

Editor's Note: Papers in this Issue, Byung R. Kim, EE July 98, p579.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Editor's Note: Papers in This Issue, Byung R. Kim, EE Sept. 98, p782.

Editor's Note: Papers of Interest, Byung R. Kim, EE Feb. 98, p81.

Effect of Flow Velocity on Sediment Oxygen Demand: Experiments, Alan A. Mackenthun and Heinz G. Stefan, EE Mar. 98, p222-230.

Evaluation of Water Quality Factors in Storm Runoff from Paved Areas, Ana B. Deletic and C. T. Maksimovic, EE Sept. 98, p869-879.

Existence of Critical Recovery and Impacts of Operational Mode on Potable Water Microfiltration, Shankararaman Chellam and Joseph G. Jacangelo, EE Dec. 98, p1211-1219.

Fate and Transport of Metam Spill in Sacramento River, P. F. Wang, T. Mill, J. L. Martin and T. A. Wool, EE July 97, p704-712.

The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Genetic Algorithms for Calibrating Water Quality Models, Ann E. Mulligan and Linfield C. Brown, EE Mar. 98, p202-211.

Linking Hydrodynamic and Water Quality Models with Different Scales, Joseph F. Atkinson, Sunil K. Gupta, Joseph V. DePinto and Ralph R. Rumer, EE May 98, p399-408.

Use of Regression Models for Analyzing Highway Stormwater Loads, Lyn B. Irish, Jr., Michael E. Barrett, Joseph F. Malina, Jr. and Randall J. Charbeneau, EE Oct. 98, p987-993.

Water table

Mass Loss from LNAPL Pools under Fluctuating Water Table Conditions, Lakshmi N. Reddi, Wei Han and M. K. Banks, EE Dec. 98, p1171-1177.

Water treatment

Chlorine Demand and Trihalomethane Formation Kinetics: a Second-Order Model, Robert M. Clark, EE Jan. 98, p16-24.

Continuous-Flow Wood Chip Reactor for Biodegradation of 2,4-DCP, Kyu-Jin Yum and J.Jeffrey Peirce, EE Feb. 98, p184-190.

Deicing Fluid Treatment in Batch-Loaded Aerobic Fluidized Bed Reactor, Steven I. Safferman, Ganesh S. Siruvalure and Larry E. Foppe, EE Jan. 98, p11-15.

Editor's Note: Papers in this Issue, Byung R. Kim, EE Aug. 98, p674.

Existence of Critical Recovery and Impacts of Operational Mode on Potable Water Microfiltration, Shankararaman Chellam and Joseph G. Jacangelo, EE Dec. 98, p1211-1219.

Interpreting Negative Virus Results from Highly Treated Water, David M. Crohn and Marylynn V. Yates, EE May 97, p423-430.

Waterborne diseases

Comparative Risk Dilemma in Drinking Water Disinfection, Lewis A. Rossman, EE Sept. 98, p781.

Watershed management

ANSWERS-2000: Runoff and Sediment Transport Model, Faycal Bouraoui and Theo A. Dillaha, EE June 96, p493-502.

Watersheds

The Future "Golden Age" of Predictive Models for Surface Water Quality and Ecosystem Management, Robert V. Thomann, EE Feb. 98, p94-103.

Generation of Long-Term Record of Contaminant Transport, Helena M. Solo-Gabriele, EE July 98, p619-627.

Stream Temperature Simulation of Forested Riparian Areas: I. Watershed-Scale Model Development, Y. David Chen, Robert F. Carsel, Steven C. McCutcheon and Wade L. Nutter, EE Apr. 98, p304-315.

Weirs

Aeration Performance of Triangular Plan-Form Labyrinth Weirs, Peter R. Wormleaton and Ebrahim Soufiani, EE Aug. 98, p709-719.

Wetlands

Design Model for COD Removal in Constructed Wetlands Based on Biofilm Activity, C. Polprasert, N. R. Khatiwada and J. Bhurtel, EE Sept. 98, p838-843.

Shallow Subsurface Characterization of Gas Transport in Playa Wetland, Jean-Philippe Nicot and Philip C. Bennett, EE Nov. 98, p1038-1046.

Wood

Continuous-Flow Wood Chip Reactor for Biodegradation of 2,4-DCP, Kyu-Jin Yum and J.Jeffrey Peirce, EE Feb. 98, p184-190.

Zinc

Effect of Sodium Xylenesulfonate on Zinc Removal from Wastewater, Robert B. Saari, John S. Stansbury and Frederic C. Laquer, EE Oct. 98, p939-944.
